**QUESTION 1**

What is the effect of selecting the option "Enable IP Forwarding" in the routing configuration in YaST?

- A. IP packets that do have this host as their destination are routed to another host.
- B. IP packets that do not have this host as their destination are filtered according to the firewall rules.
- C. IP packets that do have this host as their destination are dropped to protect the host from attacks.
- D. IP packets that do not have this host as their destination are transferred from one network connected to the host to another network connected to this host, according to the routing table.

Correct Answer: D

QUESTION 2

You are viewing the manual page of crontab, but it does not contain the information you are looking for. You suspect there is another crontab manual page. Which command could you use to find out if another crontab manual page exists? (Choose 2.)

- A. man a crontab
- B. whatis crontab
- C. man -k crontab
- D. man --next crontab
- E. man --showall crontab

Correct Answer: BC

QUESTION 3

Which statement about symmetric encryption is correct?

- A. The same key is used for encryption and decryption.
- B. Symmetric keys are generally longer than asymmetric keys.
- C. Asymmetric encryption is generally faster than symmetric encryption.
- D. A public key and a private key are needed for symmetric encryption/decryption.

Correct Answer: A

QUESTION 4

You want to secure a POP3 connection to a server that does not support SSL. While you do not have ssh access to the POP3 server itself, you at least have SSH access to a server near the POP3 server. Given the following information:
POP3 server: pop3.digitalairlines.com

SSH server: ssh.digitalairlines.com Your host: da10.digitalairlines.com POP3 port: 110 Local port: 11110 Which command will forward connections from the local port 11110 to port 110 of the POP3 server, using

a secure tunnel between your host and the SSH server?

- A. ssh -L 11110:ssh.digitalairlines.com:110 geeko@pop3.digitalairlines.com
- B. ssh -L 110:ssh.digitalairlines.com:11110 geeko@pop3.digitalairlines.com
- C. ssh -L 11110:pop3.digitalairlines.com:110 geeko@ssh.digitalairlines.com
- D. ssh -L 110:pop3.digitalairlines.com:11110 geeko@ssh.digitalairlines.com

Correct Answer: C

QUESTION 5

Which file contains information about which user was last logged in, where the user logged in, and how long the user was logged in?

- A. /var/log/login
- B. /var/log/lastlog
- C. /var/log/access
- D. /var/log/messages
- E. There is no log file containing this information

Correct Answer: B
