**QUESTION 1**

The User Directory Software Blade is used to integrate which of the following with Security Gateway R75?

- A. RADIUS server
- B. Account management client server
- C. User authority server
- D. LDAP server

Correct Answer: D

QUESTION 2

Many companies have defined more than one administrator. To increase security, only one administrator should be able to install a Rule Base on a specific Firewall. How do you configure this?

- A. Define a permission profile in SmartDashboard with read/write privileges, but restrict it to all other firewalls by placing them in the Policy Targets field. Then, an administrator with this permission profile cannot install a policy on any Firewall not listed here.
- B. In the General Properties of the object representing the specific Firewall, go to the Software Blades product list and select Firewall. Right-click in the menu, select Administrator to Install to define only this administrator.
- C. Put the one administrator in an Administrator group and configure this group in the specific Firewall object in Advanced / Permission to Install.
- D. Right-click on the object representing the specific administrator, and select that Firewall in Policy Targets.

Correct Answer: C

QUESTION 3

Which of the following is a viable consideration when determining Rule Base order?

- A. Grouping IPS rules with dynamic drop rules
- B. Grouping reject and drop rules after the Cleanup Rule
- C. Placing more restrictive rules before more permissive rules
- D. Grouping authentication rules with QOS rules

Correct Answer: C

QUESTION 4

Identify the correct step performed by SmartUpdate to upgrade a remote Security Gateway. After selecting Packages / Distribute Only and choosing the target Gateway, the:

- A. selected package is copied from the Package Repository on the Security Management Server to the Security Gateway but the installation IS NOT performed.
- B. selected package is copied from the Package Repository on the Security Management Server to the Security Gateway and the installation IS performed.
- C. SmartUpdate wizard walks the Administrator through a distributed installation.
- D. selected package is copied from the CD-ROM of the SmartUpdate PC directly to the Security Gateway and the installation IS performed.

Correct Answer: A

QUESTION 5

Which of the following uses the same key to decrypt as it does to encrypt?

- A. Asymmetric encryption
- B. Symmetric encryption
- C. Certificate-based encryption
- D. Dynamic encryption

Correct Answer: B
