- D. Power-1 Appliance

Correct Answer: B

---

### QUESTION 3

When configuring Anti-Bot and Anti-Virus, you notice the following error in the Update Status of the Gateways page:

What is the most likely cause of this error?

- A. The Security Gateway is not licensed for Anti-Bot and Anti-Virus inspection.
- B. There are no updates available for the participating gateway.
- C. The Anti-Bot and Anti-Virus policy is not installed on the gateway.
- D. You do not have DNS or proxy settings configured for the gateway.

Correct Answer: D

#### QUESTION 4

What advantage does the Recommended\_Profile provide over the Default\_Protection profile?

- A. Reduced server load
- B. Accelerated throughput
- C. Advanced reporting options
- D. Higher security posture

Correct Answer: D

#### QUESTION 5

You just enabled the IPS blade, and have downloaded the latest signature updates. You created a custom profile but you are concerned that if you push a policy it might start dropping existing connections. What should you do?

- A. Use the recommend Protection profile instead
- B. Edit your custom profile and select Detect-only for Troubleshooting mode
- C. Edit your custom profile and enable Bypass under load
- D. Use the Default protection profile instead

Correct Answer: B
