QUESTION 3

Your company has identified that change management to the physical network is time consuming and involves multiple IT support groups. NSX's capability to increase agility and speed up rapid deployment of services and changes to the virtualized network falls into what logical area?

- A. Security
- B. Automation
- C. Management

D. Performance

Correct Answer: C

QUESTION 4

An analysis of an existing network environment has determined that the time it takes to configure physical network hardware is impacting the ability to quickly make changes to the environment. Which statement best compares the time required to make changes in physical and virtual network deployments?

- A. Both types of changes take roughly the same length of time.
- B. Physical network changes are eliminated in a virtual infrastructure.
- C. Physical network changes take less time.
- D. Virtual infrastructure changes take less time.

Correct Answer: B
