QUESTION 1

What are two scenarios in which a Citrix Engineer must configure Mobile Service Provider (MSP) for XenMobile Mail Manager? (Choose two.)

A. To query unmanaged ActiveSync devices

B. For BES 4 and BES 5 integration

C. To control ActiveSync access for unmanaged devices

D. For BES 10 integration

Correct Answer: AB

QUESTION 2

A Citrix Engineer needs to push native email profiles and configurations to user devices.

Which XenMobile macros could the engineer use to automate email provisioning of native email clients on user devices?

A. {user.username} {user.mail}

B. (User.username) (User.mail)

C. %user.username %user.mail

D. #user.username #user.mail

Correct Answer: A

QUESTION 3

Scenario: A XenMobile Server has been implemented with Public Key Infrastructure (PKI) for security. Management has asked for the XenMobile Server to enumerate XenApp and XenDesktop resources. After the Citrix Engineer has configured the XenMobile Server to communicate with StoreFront, the users still CANNOT see Windows applications and desktops.

Which two additional steps must the engineer take to resolve the enumeration failure? (Choose two.)

A. List the XML Broker as a Secure Ticket Authority (STA) in StoreFront.

B. Modify the Global Catalog Context in the LDAP profile on the XenMobile Server.

C. Set up the NetScaler Gateway Logon Type to Certificate and Domain within the XenMobile Server.

D. Bind an additional authentication policy for LDAP to the NetScaler Gateway virtual server.

E. Configure the Network Access Control settings in the XenMobile Server.

Correct Answer: CD

QUESTION 4

Scenario: For testing purposes, an Android application developer needs to allow an unwrapped application to receive data from a wrapped version of WorxMail. WorxMail must remain in a restricted state.

Which action could a Citrix Engineer take to allow the wrapped application to interact with an unmanaged application while maintaining the prerequisite security standards?

A. Update the Restricted Open-In exception list.

B. Update the document exchange policy to Unrestricted.

C. Update the Public file encryption exclusions list for the application.

D. Update the desired application to the App Interaction Security Group.

Correct Answer: A

QUESTION 5

Which XenMobile option is available for Windows 8.1 Enterprise tablet devices?

A. XenMobile MDM policy

B. XenMobile Worx Apps

C. Remote support

D. Kiosk mode

Correct Answer: A
