**QUESTION 1**

Which two steps could a Citrix Engineer take to tag both corporate-owned and employee- owned devices? (Choose two.)

- A. Use enrollment invitations.
- B. Import a provisioning file.
- C. Use an automated action.
- D. Add the devices to a Delivery Group.

Correct Answer: AB

---

**QUESTION 2**

Which two statements are true when the database becomes unavailable in a XenMobile deployment? (Choose two.)

- A. New devices will NOT be able to enroll.
- B. The XenMobile Server will go offline.
- C. Enrolled devices are selectively wiped.
- D. Worx Store access will continue to function without interruption.

Correct Answer: AB

---

**QUESTION 3**

Scenario: Several users have been reporting that they have been unable to access corporate email for several minutes. A Citrix Engineer needs to verify that the XenMobile NetScaler Connector (XNC) service is running. XNC was set up using default values.

Which URL could the engineer use to verify that the service is running?

- A. <http://services/Version>
- B. <https://services/Version>
- C. <https://ActiveSync/Version>
- D. <http://services/ActiveSync/Version>

Correct Answer: D

---

**QUESTION 4**

Scenario: A Citrix Engineer needs to deploy a XenMobile solution for a large organization. The organization will use XenMobile to manage Android and iOS devices.

To provide resilience, NetScaler appliances will communicate with XenMobile Servers. The engineer has deployed all necessary infrastructure and opened the required firewall ports. To load balance mobile device management traffic, the engineer has configured NetScaler to use SSL\_Bridge to communicate with a XenMobile Server cluster.

Which persistence method should the engineer configure to facilitate consistent communication between the NetScaler and the XenMobile Servers?

- A. SSLSESSION
- B. CUSTOMSERVERID
- C. DESTIP
- D. COOKIEINSERT

Correct Answer: A

---

#### QUESTION 5

A Citrix Engineer is configuring access to a XenApp/XenDesktop environment.

Which file must the engineer define a relative path to within the XenMobile Server Console?

- A. default.htm
- B. config.xml
- C. web.config
- D. index.asp

Correct Answer: B
