**QUESTION 1**

Which two are true about roles? (Choose two.)

- A. The ALTER USER statement must be used to set specific default roles for a user.
- B. A role must be disabled before it can be revoked from a user.
- C. The SET ROLE statement can be used once per session.
- D. The SET ROLE statement enables as well as disables roles in a session.
- E. All privileges and roles granted to a user are enabled by default when the user logs in.

Correct Answer: DE

QUESTION 2

As the DBA, you execute this command:

```
GRANT SELECT ON hr.emp TO brown WITH GRANT OPTION;
```

BROWN then executes this command:

```
GRANT SELECT ON hr.emp TO scott WITH GRANT OPTION;
```

```
GRANT SELECT ON hr.emp TO scott WITH GRANT OPTION;
```

Which is true?

- A. You can revoke only WITH GRANT OPTION from BROWN.
- B. BROWN can revoke only WITH GRANT OPTION from SCOTT.
- C. When you revoke the SELECT privilege from BROWN, it is automatically revoked from SCOTT.
- D. When you revoke the SELECT privilege from BROWN, nothing is revoked from SCOTT.
- E. When you revoke the SELECT privilege from BROWN, only the WITH GRANT OPTION is revoked from SCOTT.

Correct Answer: B

QUESTION 3

Which two operations can be performed on external tables? (Choose two.)

- A. creating invisible indexes
- B. creating views
- C. creating partitions
- D. creating public synonyms
- E. executing UPDATE statements

Correct Answer: BD

QUESTION 4

Which is true about unexpired undo?

- A. It is required when a transaction rolls back.
- B. It may be used to support flashback queries.
- C. It consists of undo only for uncommitted transactions.
- D. It is always retained for the time specified in UNDO__RETENTION.
- E. It is the first type of undo overwritten when trying to avoid out-of-space errors.

Correct Answer: D

QUESTION 5

Which three actions are required to manually upgrade a database to Oracle Database 12c Release 2? (Choose three.)

- A. Run the Pre-Upgrade information tool on the source database.
- B. Take all user tablespaces offline before starting the upgrade.
- C. Copy the network configuration files from the existing database home to the new Oracle home location.
- D. Run the Parallel Upgrade utility from the new Oracle home.
- E. Run Oracle Net Configuration Assistant (NETCA) to configure the listening protocol address and service information for the new release of Oracle Database.
- F. Make all user tablespaces "read only" before starting the upgrade.
- G. Start the existing database in upgrade mode.

Correct Answer: ADG
