**QUESTION 1**

In a Project Draft Invoice preview, quantity (hours) and unit price (bill rate) are shown as fields on the invoice. Quantity and unit price are then used to calculate the line total, then the total price of the invoice. After the invoice is transferred or created in Receivables, the invoice detail has a quantity of 1, and a unit price equal to the line total. The detailed Unit Price/Quantity does not come through on the Receivables invoice.

Which statement is correct about details in the Receivables invoice?

- A. The project sends the invoice header, invoice line description, and the invoice distributions to Receivables.
- B. The project sends only the invoice header to Receivables, not the invoice line description and distributions.
- C. The project sends the invoice line description and the invoice distributions to Receivables. But not the invoice header.
- D. The project sends only the invoice header and invoice line description to Receivables, not the invoice distributions.

Correct Answer: A

---

**QUESTION 2**

As you go through the first-quarter close for your customer, you notice that the burden amounts calculated do not seem to be right. Based on the calculations, you notice that the amounts calculated are not considering the burden schedule override at a task level, which was done during the second month of the quarter.

Identify the reason for this problem.

- A. You can enable automatic reprocessing of expenditure items processed before the burden schedule change.
- B. Only new expenditure items charged to the task use the new burden schedule; expenditure items processed earlier cannot be reprocessed.
- C. All expenditure items charged to the task use the new burden schedule.
- D. Only new expenditure items charged to the task use the new burden schedule; expenditure items processed earlier can be manually marked for reprocessing.

Correct Answer: D
