**QUESTION 1**

Your users receive a notification for a transaction from CPQ when an approval has been retracted and is no longer needed. The notification contains a generic message about this action. However, users would like to get more details about the transaction. What is the Oracle-recommended best practice to fulfill this requirement in CPQ?

- A. Trigger an email action to notify users by custom defining the email's subject and body, which contain the transaction details, by using the advanced function available in the Revise action.
- B. When a transaction needs to be revised, allow the transaction owner to send a parallel email to approvers, which should include the necessary transaction details.
- C. Switch the system-generated email-to-email template, which will include the desired transaction information when approvers are notified.

Correct Answer: A

QUESTION 2

You want to add multiple sections to your Document Designer template, and you want the sections flow in the template without page breaks between each section. How would you accomplish this?

- A. Select the Child Section check box in the Section Properties panel for each subsequent section following the first section in the series.
- B. Add each section to the template and manually remove the page breaks at the end of each section.
- C. Add the first section in the series and select the Continuous Section check box in the Section Properties panel.
- D. You do not have to do anything because this is the default behavior in Document Designer.
- E. Select the Continuous Section check box in the Section Properties panel for each subsequent section following the first section in the series.

Correct Answer: E

QUESTION 3

The Related Parts data table exists in the QA environment and in the production environment. The table has 3,000 records in the QA environment and 4,000 records in the production environment. How many records will be present in the data table in the production environment if this table is migrated from the QA environment?

- A. 7,000
- B. 3,000
- C. 4,000
- D. 1,000

Correct Answer: C

QUESTION 4

A new user group has been created in the development environment. What should you do to migrate this new user group to the production environment?

- A. Migrate Commerce to the production environment.
- B. Migrate the new user group to the production environment.
- C. Manually create the new user group in the production environment.
- D. Migrate the new users to the production environment.

Correct Answer: B

QUESTION 5

Select two statements that are true about Test Script found in a function debugger. (Choose two.)

- A. Test Script is template of how the BML function should be written.
- B. Test Script provides a way to test a BML Library function when array type attributes are input parameters.
- C. Test Script describes the various functions used in BML.
- D. Test Script can be used to compute multiple iterations of the library functions and print each.

Correct Answer: BC
