QUESTION 1

Your customer requires that the person number should not be generated if a request for new hire is not approved by the approver.

Which method should be used?

- A. Automatic Upon Final Save
- B. Automatic Upon Final Submission
- C. Automatic Prior to Final Save
- D. Automatic Prior to Submission

Correct Answer: A

QUESTION 2

A client's organization employs disabled individuals. All these individuals are registered with an external organization that supports them. The client wants to capture the registration details and some legislative information pertaining to their disabilities. As an implementation consultant, how would you configure the system to capture this information?

- A. Define disability organizations in the system and, while creating person records, enter any other descriptive or legislative information pertaining to disability.
- B. Define a tax reporting unit for the group of employees with disabilities.
- C. Define Reporting Establishment for the group of employees with disabilities and capture the required information.
- D. Because the organization supporting the disabled employees is an external organization, information pertaining to this cannot be captured in the system.

Correct Answer: A

QUESTION 3

When configuring a checklist application task what value must be select to ensure you will only be able to select from a list of employee tasks verses manager tasks?

- A. Ensure the owner field is set to employee.
- B. Ensure the eligibility profile linked to the task contains criteria the include only active employees.
- C. Ensure the owner and performer are both set to employee.
- D. Ensure the performer field is set to employee.

Correct Answer: C

QUESTION 4

A candidate applied for an employment opportunity with a legal employer in the past. The candidate reapplies after some time for an opportunity with a different legal employer in the same enterprise.

While applying the second time, the candidate provides a new national identification value. Which option does the application use to check if a matching record already exists in the system?

- A. The application cannot identify the matching record and there will be two person records available for further processing.
- B. The application identifies a match if the first name, the first character of the last name, and date of birth are the same; or if the last name, the first character of the first name, and date of birth are the same.
- C. Because the national identifier has changed, the system cannot identify the matching record.
- D. The application searches for the availability of date of birth and middle name to identify the matching record.

Correct Answer: B

QUESTION 5

As an employee within an organization you access your Public Information/Spotlight page within the Directory.

What updates are you allowed to directly make on this page that all users with access to your Public Spotlight will be able to view?

- A. Update area of expertise, area of interest, contact information, profile photo, public message, and HR Representative Information.
- B. Update about me, area of expertise, area of interest, contact information, profile photo, public message, and peer information.
- C. Update about me, area of expertise, area of interest, contact information, profile photo, public message, and background photo.
- D. Update home address, area of interest, contact information, profile photo, public message, and background photo.

Correct Answer: A
