QUESTION 1

Which three are correct locations from where Line Managers can access the Add Assignment guided process? (Choose three.)

- A. Person Management work area in My Workforce
- B. Smart Navigation
- C. Actions Menu in About Me work area
- D. Actions Menu in My Team work area E. Quick Actions

Correct Answer: BDE

QUESTION 2

Your company wants to track previous employment information for workers, including employer name, dates of employment, and job description. Which action should you perform?

- A. Create a free-form content type and a new content item.
- B. Create a new content type and content item.
- C. Use a seeded content type and a new content item.
- D. Create a new content type but a seeded content item.
- E. Create a free-form content type without a content item.

Correct Answer: E

QUESTION 3

During implementation, a two-tier employment model has been set up. Now the client wants to store employment terms and contract details for its employees. Which statement is true about moving from two-tier to a three-tier model?

- A. The client can have both: a two-tier employment model can remain for its existing employees, and a three-tier employment model can be created to hire new employees within the same legal employer.
- B. The client cannot move from a two-tier to a three-tier employment model after the model has been implemented.
- C. The client can move from a two-tier to a three-tier employment model at any point of time, irrespective of the existence of work relationships.
- D. If no work relationships exist in the enterprise or legal employer, then the client can switch from a two-tier to a three-tier employment model.

Correct Answer: D

**QUESTION 4**

Action Type identifies the type of business process associated with an action and determines what happens when you select that Action. As part of implementing Oracle Global Human Resources Cloud, Action Types are associated with Actions.

Which two statements are correct regarding Action types? (Choose two.)

- A. Additional Action types can be created.
- B. An Action type cannot be associated with user-defined actions.
- C. Action types are seeded.
- D. Every Action type can have multiple actions within it.
- E. If Termination is an action, Normal Termination is an action type.

Correct Answer: CD

QUESTION 5

As part of a client's configuration requirements, they have indicated that they want to create divisions by

Line of Business within HCM Cloud.

After creating them in which two ways can you associate workers with a specific division? (Choose two.)

- A. Division is a delivered field on a position. If you are using Positions, when you associate a worker with a position, they will be associated with the division tied to that position.
- B. You configure and deploy an assignment descriptive flexfield that has a table value set that references the Division object. When you complete a worker's assignment, you select the appropriate division through that flexfield segment.
- C. Division is a delivered field on the worker assignment so when a worker is hired, the correct division would be selected by the user entering the information.
- D. You have configured an Organization Tree, listing the hierarchy of your Legal Entities, Divisions, Business Units, and Departments. You associate a worker with a department that falls within a division to associate the worker with that division.

Correct Answer: AC

As part of a client's configuration requirements, they can create divisions by Line of Business within HCM Cloud, and associate workers with a specific division by using the Division field on a position (if they are using positions) or the Division field on the worker assignment when a worker is hired.
