**QUESTION 1**

You have two business units, Vision Operations and Vision Services. How can you enable expense auditors to audit expense reports for specific business units?

- A. Use segment valuesecurity rules to secure access to business units.
- B. Assign the Expense Auditor Vision Operations and Expense Auditor Vision Services data roles to each Expense Auditor.
- C. Assign the Expense Auditor as the owner of each business unit.
- D. Assign the Expense Auditor job roles to each auditor.

Correct Answer: B

You can enable expense auditors to audit expense reports for specific business units by assigning them specific expense auditor data roles for the business units. For example, to allow an expense auditor to audit expense reports for the Vision Operations and Vision Services business units, assign the Expense Auditor Vision Operations and Expense Auditor Vision Services data roles, respectively, to the expense auditor.

QUESTION 2

Which job role has full access to perform all Functional Setup Manager related activities?

- A. Application System Administrator
- B. Any Functional User
- C. Functional Setup Manager Superuser
- D. IT Security Manager
- E. Application Implementation Consultant

Correct Answer: E

QUESTION 3

The Accounts Payable Manager voided a foreign currency payment due to insufficient funds. Which three statements are correct? (Choose three.)

- A. All related interest invoices are reversed if previously created.
- B. Any previous accounting and payment records for an invoice are reversed.
- C. All related withholding tax invoices are automatically voided.
- D. Any realized gain or loss previously calculated is reversed.

E. Voiding the payment automatically places an invoice on hold.

Correct Answer: ABD

D: When you void a payment, Payables automatically reverses the accounting and payment records so your general ledger will have the correct information, and so the status of the paid invoices is reset to Unpaid. Payables also reverses any realized gains or losses on foreign currency invoices recorded as paid by the payment.

B: If you withhold taxes at payment time and you void a payment that paid an invoice with an associated withholding tax invoice, then Payables automatically creates a negative (reversing) invoice for the tax authority supplier to offset the amount of the tax withholding invoice. You determine when you withhold taxes by selecting the Apply Withholding Tax option in the Payables Options page. References: Oracle Payables User's Guide, Voiding Payments Using the Payments Window

QUESTION 4

Identify what Oracle considers two best practices when setting up Payables and Receivables account access for bank reconciliation. (Choose two.)

- A. Do not assign bank accounts to business units.
- B. Assign a few general ledger cash accounts to multiple bank accounts to facilitate book-to-bank reconciliation.
- C. Business units must be granted access to the bank account.
- D. Only business units who use the same ledger as the bank accounts owning legal entity can be assigned access.
- E. Allow bank accounts to be accessed by all roles and users because the default value to secure a bank account by users and roles is No.

Correct Answer: CD

Account Access Payables and Receivables account access is secured by business unit. In addition to selecting the appropriate application use or uses, one or more business units must be granted access before the bank account can be used by Payables and Receivables. Only business units that use the same ledger as the bank accounts owning legal entity can be assigned access.

QUESTION 5

When reviewing installments, what setup is required to override the supplier site on an invoice?

- A. Allow the remit-to supplier override for third-party payments at Manage Invoice options.
- B. Allow the remit-to supplier address override for third-party payments at Manage Invoice options.
- C. Allow payee to override for third-party payments while Manage Invoice options.
- D. Allow the remit-to supplier override for third-party payments at Manage Payment options.

Correct Answer: B

(Optional) Setting the Remit-to Supplier Override Option References: https://docs.oracle.com/cloud/farel9/financialscs_gs/FAIPP/F1470346AN14ECB.htm
