QUESTION 1

A storefront developer has just logged into the Commerce Cloud Administration UI and selects the Design page to begin configuring layouts and components for their account-based implementation.

What two key concepts must they understand? (Choose two.)

A. A B2B Storefront implementation can include B2B-specific widgets as well as standard widgets that support both B2B and B2C implementations.

B. Out-of-the-box B2B-specific storefront layouts and associated components must be used for the account-based implementation and cannot be customized.

C. "Display layout to account shoppers only" must be selected in the layout settings in order to restrict the layout to account-based shoppers only.

D. A B2B storefront implementation can only support one site per Account.

Correct Answer: CD

QUESTION 2

You want a contact with an associated storefront role of Administrator to be able to manage contact registration requests for their account.

What two configuration steps are necessary to implement this functionality? (Choose two.)

A. Add the Contact Login with Self Registration element to support B2B Contact Registration Requests in the Header Widget instance

B. Ensure that generated emails for registration requests are enabled to allow the administrator to accept or reject the request directly from the email

C. Ensure that the Profile Navigation ?Account Shoppers widget instance supports Registration Requests on My Account for storefront administrators

D. Configure the Contact Registration Requests widget settings to specify the storefront role of admin

Correct Answer: CD

QUESTION 3

An organization has implemented loyalty points as a payment currency by creating a payment gateway extension with loyaltyPoints as one of the paymentMethodTypes and configuring the Custom Curency Payment webhook.

What additional step does the organization need to do to add loyalty points as a payment option on the Payments Method widget?

A. Create a custom widget extension called Loyalty Payment and add it to the checkout layout

B. Create a new checkout layout with custom widgets for payment

C. Nothing. The Payments Method widget already includes loyalty points as a payment option

D. Add the baseline Loyalty Payment widget to the checkout layout on the Design page

Correct Answer: A
