**QUESTION 1**

Which two services are part of the Identity SOC that can be natively integrated with Oracle Human Capital Management (HCM)? (Choose two.)

- A. Oracle Identity Cloud Service
- B. Oracle CASB Cloud Service
- C. Oracle Security Monitoring and Analytics Cloud Service
- D. Oracle Orchestration Cloud Service

Correct Answer: AB

QUESTION 2

Which Oracle Identity Security Operations Center (SOC) component detects SQL query anomalies for any database or application?

- A. Oracle Configuration and Compliance Cloud Service
- B. Oracle Identity Cloud Service
- C. Oracle Security Monitoring and Analytics Cloud Service
- D. Oracle CASB Cloud Service

Correct Answer: C

QUESTION 3

Which do you configure if you need to supplement the risk events that are automatically created in the Oracle CASB Cloud Service?

- A. Configure Notifications
- B. Configure Incidents
- C. Configure Custom Risk Events
- D. Configure Custom Policy

Correct Answer: D

QUESTION 4

In your organization you are planning to implement Oracle Identity SOC as a cloud security solution. What are two reasons for using an Identity SOC Solution? (Choose two.)

- A. It incorporates the threat intelligence feeds from IP blacklists and known vulnerable databases only.
- B. It uses adaptive ML-based analytics with identity.
- C. It provides the ability to have a hybrid enterprise application solution.
- D. It provides multiple tools for data operations.

Correct Answer: AB

QUESTION 5

A customer use case requires the second Factor Email during Oracle Identity Cloud Service Authentication process for a group of users only. The security administrator, signed in Oracle Identity Cloud Service console, enabled the email factor, edited the default sign-on policy and added a new sign-on rule. The new sign-on rule included the group name in the member of these groups conditions and prompt for additional factor every time. The administrator saved both the rule and the policy.

After executing this configuration, why does the email factor NOT appear to users from that group?

- A. The default Sign-on Policy can't be changed.
- B. The security administrator needs to specify the list of users instead of the group name.
- C. The Passcode Length and Validity Duration of the email factor don't have a default value.
- D. The security administrator didn't change the order of the sign-on rules.

Correct Answer: C
