**QUESTION 1**

When using Oracle Management Cloud, you observe this error:

Linux Cron Logs	<code>/var/log/cron*</code>	This source specifies a file that cannot be read by the agent. Ensure the file to be monitored is readable by the user the agent is installed as.
-----------------	-----------------------------	---

How should you resolve this?

- A. Stop and start the agent.
- B. Uninstall and reinstall the agent.
- C. Add read permissions for the agent user on `/var/log/cron*`.
- D. Change the owner of the LOG directory `/var/log` to match that of the Cloud agent user.

Correct Answer: C

---

**QUESTION 2**

You deployed the Application Performance Monitoring (APM) agent to a JBoss application server but don't see data in the APM web user interface. What two steps should you perform to troubleshoot the issue? (Choose two.)

- A. Confirm that the registration key is VALID and re-enter it.
- B. Close the browser to see if it is a cookie issue.
- C. Reboot the application because this sometimes has to be done twice to pickup changes.
- D. In the APM display, under agent administration, see if the agent name and last time the agent checked in with Oracle Management Cloud appear.
- E. Look in the agent log file to see if there are any errors being reported and if it is seeing traffic.

Correct Answer: AE

---

**QUESTION 3**

An Oracle Enterprise Manager customer wants only their production systems analyzed by Oracle IT Analytics. What should you do so that the Data Collector agent collects data only from production Enterprise Manager target systems?

- A. In Oracle Enterprise Manager Cloud Control, set the lifecycle status of production targets to Production.
- B. Deploy a new on-premises Enterprise Manager Cloud Control environment that has just the production targets and configure the Data Collector agent to harvest data from it.
- C. Modify the Data Collector agent configuration file to select only production targets.

D. Within Oracle Enterprise Manager Cloud Control on-premises, place production targets in a group called omcgroup.

Correct Answer: D

---

#### QUESTION 4

Where do you navigate to create an alert rule for Application Performance Monitoring?

- A. Log Analytics Start Page > Bell > Configuration
- B. Application Performance Monitoring Start Page > Clock > Configuration
- C. Log Analytics Start Page > Application Navigator > Agents
- D. Home > Administrator
- E. Application Performance Monitoring Start Page > Bell > Configuration

Correct Answer: D
