**QUESTION 1**

Available to promise rules are \_\_\_\_\_.

- A. Seeded using APICS conventions
- B. User defined in order management module
- C. User defined using a matrix of selectable criteria
- D. User defined in the global order promising module
- E. System assigned base upon the item type, cumulative lead time and un consumed forecast

Correct Answer: C

**QUESTION 2**

You are revising a sales order by manually scheduling the following fulfillment line and splitting it. Which three order attributes can be updated for the split line? (Choose three.)

Order	Fulfillment Line	Item	Item Description	Ordered Quantity	UOM	Order Line	Status	Warehouse	Orchestration Process Name	Unit Selling Price	Shipping Method	Scheduled Ship Date
74263	42370	CM6755020	8" Black Case with Bluetooth Keyboard	10	Ea	1	Manual Scheduling Required	Atlanta	DOO_OrderFulfillmentGenericProcess	17.00USD	DHL AIR Next day air	4/24/2016 19:00

- A. Fulfillment Line shipment method
- B. Fulfillment Line warehouse
- C. Fulfillment Line scheduled ship date
- D. Fulfillment Line unit selling price
- E. Fulfillment Line quantity

Correct Answer: ABE

**QUESTION 3**

Your company wants to revise an existing sales order in Order Management Cloud to compensate the downstream legacy fulfillment system that does not allow any update to the already interfaced fulfillment lines. What type of compensation pattern rule would you need to define for the orchestration process fulfillment step?

- A. Define one rule of type CREATE.
- B. Define one rule of type UPDATE.
- C. Define two rules: one of type CANCEL and another of type CREATE.

D. Define one rule of type CANCEL\_CREATE.

Correct Answer: C

A rule that you can set on an orchestration process step that specifies the adjustments to make when an order changes. Undo, Redo, Update, Cancel, and None are each an example of a compensation pattern. For example, assume the compensation pattern for a Create Shipment step is Redo, and that this step calls the Cancel service and the Create service. If Order Management receives a change order that includes a new warehouse for this step, then it runs the Cancel service and the Create service again.

#### QUESTION 4

Which two statements are true about the functional capabilities of Oracle Cloud Configurator? (Choose two.)

- A. For users who do not have access to Oracle Fusion Product Hub, Oracle provides an alternative option to create models directly in the workspace area.
- B. Only the optional structure and attributes of a Product Item are imported from Product Hub to Configurator and not the mandatory elements because they cannot be configured by an end user.
- C. Multiple drafts of the same model can be modified at the same time, but they must be in different workspaces.
- D. The user interface pages are tightly connected to the model. You cannot add, delete, or reorder pages without affecting the model structure.

Correct Answer: BC

"Configurator models are imported from items maintained in Oracle Fusion Product Hub (which is accessed by the Product Information Management work area) that have a Structure Type of Model. Only the optional structure and attributes of the product item are imported, because the required elements of the product item cannot be configured by an end user. The option classes and optional standard items for each model item are also imported." "Configurator models are versioned objects. A model can go through multiple drafts before being released in a series of versions. There can be multiple drafts of the same model being modified at the same time, but they must be in different workspaces. A message notifies you if you add a model to a workspace when another draft exists in another workspace. There can only be a single released version of a model with the same effective start date."

---

#### QUESTION 5

Which action must be performed on the orchestration process user interface to activate an orchestration process after the order orchestration configurations are completed?

- A. Download the generated orchestration process.
- B. Validate the orchestration process.
- C. Release the orchestration process.
- D. Release and deploy the orchestration process.

Correct Answer: D
