### QUESTION 3

Your company has a single global installation that contains Oracle Cloud Product Management, Oracle Cloud Trading Community Model, and Cloud Order Management. It has all the execution systems implemented in tandem with Global

Order Promising. The Master data elements have also been migrated to their respective areas. The next step is to run the data collection program to load the planning data repository.

Which five data elements will the collection program load into the planning data repository? (Choose five.)

- A. Currencies
- B. Shipping methods

- C. Suppliers
- D. Customers
- E. Items
- F. Cross-referenced data
- G. Calendars

Correct Answer: CDEFG

---

#### QUESTION 4

In a Cloud Order Management implementation, a customer has order capture and fulfillment systems located across the globe. The customer would like to ensure that the time zone is reflected in each transaction based on the location of the entity.

What step is required in order to achieve this business requirement?

- A. Select the time zone when importing a transaction to the Order Management System.
- B. Select the time zone in user preferences when entering a transaction.
- C. Select the time zone by using the profile option in the Functional Setup Manager,
- D. Select the time zone during the configuration of the Source system.

Correct Answer: B

#### QUESTION 5

You are implementing the entire suite of Supply Chain Management Cloud for an auto component manufacturing and distribution company. This company has a manufacturing facility where different auto electrical components are produced to fulfill the demand that originates from various customers. One of the components that the company sells to its customers requires specialized operations; therefore, the company outsources it to an external manufacturer instead of producing it in its own facility.

Which two steps are required to fulfill the demand for this component through outsourced manufacturing? (Choose two.)

- A. Define this component as an Item with the "Contract Manufacturing" field enabled and the "Make or Buy" attribute set to "Buy."
- B. Define this component as an Item with the "Contract Manufacturing" field enabled and the "Make or Buy" attribute set to "Make."
- C. Select the Customer Sales Order Fulfillment check box under the Procurement offering.

- D. Create a sourcing rule of the Buy type for this component in the selling inventory organization.
- E. Model the manufacturer to which the component production is outsourced as a Supplier in the enterprise.
- F. Create a sourcing rule of the Make type for this component in the selling inventory organization.

Correct Answer: BE
