QUESTION 4

After loading Workforce data from external systems, which two statements describe actions you can take to process Workforce data? (Choose two.)

A. If an existing employee was omitted from the load file, you can add that existing employee in Workforce. Then assign properties and compensation options for that employee.

B. To calculate updated compensation data after changing benefit options and rates from the loaded file, first change the benefit options and rates in Workforce and then run the Calculate Compensation business rule.

C. If an existing employee was not loaded from the load file, you won't be able to add their compensation information before first adding them to the source system and reloading the file.

D. Because you cannot override loaded default assignments in Workforce, change the defaults in the load file and reload it.

E. To override loaded default assignments, change them in Workforce. After saving your changes, updated compensation data is calculated.

Correct Answer: BD
