

1Z0-1096-22^{Q&As}

Oracle Machine Learning using Autonomous Database 2022 Specialist

Pass Oracle 1Z0-1096-22 Exam with 100% Guarantee

Free Download Real Questions & Answers **PDF** and **VCE** file from:

<https://www.pass4itsure.com/1z0-1096-22.html>

100% Passing Guarantee
100% Money Back Assurance

Following Questions and Answers are all new published by Oracle
Official Exam Center

-  **Instant Download** After Purchase
-  **100% Money Back** Guarantee
-  **365 Days** Free Update
-  **800,000+** Satisfied Customers

**QUESTION 1**

Examine the command:

```
%script
```

```
SET SQLFORMAT ANSICONSOLE
```

What is the output of a query if this sqlformat is set?

- A. It formats the output columns with fixed-width columns with data enclosed in double quotation marks.
- B. It formats the output columns to return ANSI characters.
- C. It formats and resizes the output columns to the width of the data to save space.
- D. It formats the output columns to add ANSI characters as the delimiter string.

Correct Answer: B

QUESTION 2

When managing Machine Learning models using the OML AutoML UI, what are the three actions that can be performed on Oracle Machine Learning (OML) models from within OML AutoML UI?

- A. Review the model statistics associated with the experiment of an ONNX-format image classification model.
- B. Create a notebook with auto-generated OML4Py code from an OML in-database model to allow for further model tweaking and batch scoring.
- C. Review the model statistics associated with the experiment of an OML in-database model.
- D. Deploy an OML in-database model to a REST endpoint.
- E. Review the model statistics associated with the experiment of an ONNX-format (Open Neural Networks Exchange) model.

Correct Answer: BCE

QUESTION 3

You want to predict which customers are likely to increase spending if given an additional credit card. Your task is to build a model using demographic and aggregated credit card data for customers who have used similar cards in the past.

Which machine learning technique should you use to achieve this?

- A. Classification

- B. Regression
- C. Feature Extraction
- D. Attribute Importance

Correct Answer: D

QUESTION 4

Which is a FALSE statement regarding Oracle Machine Learning (OML)?

- A. OML offerings need a separate data visualization tool for creating visualization.
- B. OML provides univariate and multivariate statistics.
- C. OML provides integration with open source Python and R statistical analysis functions.
- D. OML provides scalable statistical functions though OML4Py and OML4R.

Correct Answer: A

QUESTION 5

What is the proper workflow for analyzing data in Oracle Machine Learning?

- A. Evaluate the model, prepare the data, build the model, and deploy the model.
- B. Get predictions from the model, prepare the data, build the model, and deploy the model
- C. Prepare the data, build the model, evaluate the model, and deploy the model.
- D. Build the model, prepare the data, evaluate the model, and deploy the model.

Correct Answer: D
