**QUESTION 1**

Which statement is true about Performance and Capacity SSDs being intermixed on the same Drive Enclosure?

- A. You need to assign different types of disks to different disk groups, SSDs within a disk group must be of the same type.
- B. You cannot mix SSD types within a Drive Enclosure. All SSDs within a DE must be the same type.
- C. SSDs require different carriers than those that they are shipped with. When adding different types of SSD in a DE, you must exchange the drive carrier with the extra drive carrier that is included in the kit.
- D. You can assign different types of disks to different disk groups. SSDs within a disk group can be of a different type.

Correct Answer: B

---
