QUESTION 1

Which two statements are true about the role of Oracle Business Rules in Adaptive Case Management (ACM)?

- A. Defining business rules is mandatory to be able to build, deploy, and run an ACM project.
- B. Business rules are used to handle case events and take specific actions on the case.
- C. Business rules are used to activate conditional case activities.
- D. Oracle Business Rules is an optional component of ACM.

Correct Answer: CD

QUESTION 2

Which two case elements can have due dates configured? (Choose two.)

- A. Case
- B. Case data
- C. Events
- D. Milestones
- E. Activities

Correct Answer: AB

QUESTION 3

In which two tools can you explore the path taken by a running process instance? (Choose two.)

- A. Enterprise Manager
- B. Process Composer
- C. Weblogic Console
- D. Business Process Workspace

Correct Answer: AD

QUESTION 4

Which objective can be accomplished by using business rules in workflow routing?

- A. Create a new routing rule and invoke it immediately.
- B. Create new participants and make them available as targets for routing.
- C. Send a routing slip back to the previous participant for a workflow stage that is associated with a group vote (parallel) scenario.
- D. Make a routing decision before the task is assigned to the next routing slip participant.

Correct Answer: D

QUESTION 5

A task is considered overdue when _____.

- A. there are no more renewals
- B. the current date is beyond the due date
- C. the current date is beyond the expiration date
- D. the current date is beyond both the expiration date and the due date

Correct Answer: B

Explanation: A task is considered overdue after it is past the specified due date. This date is in addition to the expiration policy. A due date can be specified irrespective of whether an expiration policy has been specified. The due date enables Oracle BPM Worklist to display a due date, list overdue tasks, highlight overdue tasks in the inbox, and so on.
