A. there are no more renewals

B. the current date is beyond the due date

C. the current date is beyond the expiration date

D. the current date is beyond both the expiration date and the due date

Correct Answer: B

Explanation: A task is considered overdue after it is past the specified due date. This date is in addition to the expiration policy. A due date can be specified irrespective of whether an expiration policy has been specified. The due date enables Oracle BPM Worklist to display a due date, list overdue tasks, highlight overdue tasks in the inbox, and so on.
