**QUESTION 2**

You have configured a user role for HR reporting administrators and mapped users to this role using an HR Reporting Admin group.

An HR reporting administrator user logs in to the system and notices that he/she is unable to access the Control Panel to create or run reports and asks you to investigate the issue.

While performing a quick check, you are able to confirm that the user has been assigned to the correct groups, but the permissions are missing.

Identify three reasons why this happened.

- A. The users were not mapped to the group when they were first assigned to the role, and you need to update the mapped users for this role.
- B. The HR Reporting Administrator role has been set to inactive.
- C. The user account has been set to inactive.
- D. The HR Reporting Administrator role does not have the permissions to manage reports.

Correct Answer: ABD
