QUESTION 1

What is not true about planning in OUM?

A. OUM has been developed with the intent that the approach for a given project be built up from a core set of activities.

B. Projects should be tailored down from the full OUM work breakdown structures.

C. OUM takes an iterative and incremental approach to planning a project.

D. Tasks within OUM are considered place holders for work.

Correct Answer: D

Incorrect:

Not A:OUM is designed to support a broad range of project types. As such, it must be flexible andscalable.

The appropriate point of balance for a given project will vary based on a number of project risk and scale

factors. The method has been developed with the intent that the approach for a given project be "built up"

from a core set of activities to implement an appropriate level of discipline, rather than "tailored down".

Not B:OUM facilitates improved control of project expenses by using a flexible work breakdown structure

that allows you to perform only necessary tasks.

Not C:OUM recognizes the advantages of an iterative and incremental approach to development and

deployment of information systems. Any of the tasks within OUM may be iterated. Whether or not to

iterate, as well as the number of iterations, varies. Tasks may be iterated to increase quality of the work

products to a desired level, to add sufficient level of detail, or to refine and expand the work products on

the basis of user feedback.

QUESTION 2

What is the basis for the Project Management Plan [PMP]?

A. the Project Framework

B. the project deliverables

C. the resourcing plan

D. the procurement plan

Correct Answer: A

The creation of the PMP is started with the Project Management Framework in the task BT.070 ?Create Project Management Framework, which is part of the OUM Manage Focus Area\\'s Project Startup Phase. The project manager creates the Project Management Framework, along with the project sponsor and other stakeholders. At this point in the project, the Project Management Framework represents the PMP at the strategic level. In fact, the Project Management Framework can be thought of as the initial or high-level version of the PMP.
