A. Group Spaces

B. Personal Spaces and Group Spaces

C. Personal Spaces

D. Globally

Correct Answer: A

QUESTION 2

When a user creates a new page template, the JDeveloper creates an XML file called page-template Mtadata.xml. Where does it create the file?

A. /Model/src/META-INF

B. /ViewController/src/WEB-INF

C. A/ViewController/src/META-INF

D. /ViewController/template/META-INF

E. /ViewController/mdssys/META-INF

Correct Answer: C

QUESTION 3

What is the procedure to add a user to WebCenter Spaces if you are using the embedded LDAP?

A. Add the user in the system using WebLogic enterprise manager and then import the user into WebCenter Spaces.

B. Click the Add Users tab under Administration and follow the links.

C. Import users using an Excel spreadsheet.

D. Click the Security tab under Administration, then select Add Users and add users by entering the usernames.

Correct Answer: A

QUESTION 4

In the JDeveloper design environment, which option best describes how to add a composer component?

A. In Component Palette, select the Runtime-editing component. Select the Allow runtime-editing check box. Next drag the oracle composer component.

B. Add a Change Mode link to the page. In Component Palette, select Oracle Composer from the list at the top.

C. Open the runtimeEnv.xml file from JDeveloper. Locate the [New] section and add the following line: OracleComposerShow=true

D. In Resource Catalog, select Add/Modify components. From the list, select Oracle Composer.

Correct Answer: D

QUESTION 5

Which option describes the differentiating feature of an Enterprise portal?

A. A portal that has the ability to utilize single-sign-on capability either through an internal or an external LDAP

B. A portal that has the ability to display content from a database as well as a content management system

C. A portal that has the ability to perform social computing as well as displaying dynamic content through back-end integration

D. A portal that is designed to be operational 24X7 and has the capability to fail over to another location

Correct Answer: A
