Correct Answer: C

QUESTION 3

Which two statements indicate the actions that need to be taken before changing the default field label on a field definition? (Choose two.)

- A. Check if the default label is used in any page definitions
- B. Check if the default label is used in any record definitions
- C. Check if the default label is used in any component definitions
- D. Check if the default label is used in any PeopleCode
- E. Check if the default label is active

Correct Answer: AB

QUESTION 4

Choose the correct statement about translate values appearing in the drop-down list on a page.

- A. The translate values must be active and have an effective date earlier than the effective date on the prompting table
- B. The translate values must be active and you must enter a short name when adding the translate value
- C. The translate values must be active and not contain any special characters
- D. The translate values must be active and all values must have the same length
- E. The translate values must be active and have an effective date later than the effective date on the prompting table

Correct Answer: A

Reference: https://docs.oracle.com/cd/E41633_01/pt853pbh1/eng/pt/tapd/task_UsingtheTranslateTable077674.html

QUESTION 5

You are testing the Course Session Details page. You click the Lookup button for the Instructor field and select a name. When you tab off the field, a message is displayed.

The screenshot shows the 'Course Session Details' page with the following fields and values:

- CourseCode: 2000
- Cloud Manager
- Session Details: Find, View all, First, 1 of 1, Last
- *Session Number: 1
- *Business Unit: NAM01 (N. America - NE/Canada)
- *Start Date: 02/20/2017 (01), End Date: 02/20/2017 (01)
- Max Students: 14
- *Session Status: Active
- *Training Facility: SOS (Boston Training Center)
- Instructor: 00001 (highlighted in red)
- Classroom: Room A, Room B, Room D, Room E

A message dialog box is displayed with the following text:

Message
Invalid value - press the prompt button on hyperlink for a list of valid values (15,11)
The value entered in the field does not match one of the allowable values. You can see the allowable values by pressing the Prompt button on hyperlink.
OK

What caused this issue and how do you fix it?

- A. The menu definition associated with this page has the wrong search record; examine the menu definition
- B. The page field definition has the wrong prompt table assigned; examine the page definition

- C. The component definition associated with this page has the wrong search record; examine the component definition
- D. The record field definition has the wrong prompt table assigned; examine the record definition
- E. You selected an incorrect value from the prompt; select a different value

Correct Answer: C
