QUESTION 1

David has created Page 10 as a form page using an Automatic Row Fetch process. A column named LOCATION has been added to the underlying table, and the form needs to include this new column.

You decide to copy an existing page item :P10_DEPTNO and use that to represent the LOCATION column.

Which is the minimum action required on the copied item to get the form working correctly?

- A. Update the item label.
- B. Set value required to No.
- C. Update the item name.
- D. Change the source type to NULL.
- E. Set the source database column to LOCATION.

Correct Answer: D

QUESTION 2

Bill has created a Maintain Customer form as shown in Exhibit 1.

Customer

Maintain Customer

First Name

Last Name

Street Address1

Street Address2

City State Postal Code

Cancel Create

Now he wants the Last Name item to be next to the First Name item as shown in Exhibit 2.

First Name	Last Name
Street Address1	

How can Bill achieve this?

- A. Set Start New Row to "Yes" and New Column to "Yes" for the Last Name item.
- B. Set Start New Row to "No" for the Last Name item.
- C. Set Column to "2" for the last Name item.
- D. Set Column Span to "2" for the First Name item.

Correct Answer: A

QUESTION 3

Which two are true about an "editable" interactive grid? (Choose two.)

- A. All columns can be updated
- B. You can insert multiple records at a time
- C. You can define a computation
- D. You can update only one record at a time
- E. You can include dynamic actions on a column

Correct Answer: DE
