QUESTION 1

What is the least error-prone way to split a long list into two lists?

A. Create an empty second list, copy selected list items from the first list to the second list, and then remove the copied list items from the first list.

B. Create two new lists, copy list items from the initial list to the first list, copy the remaining list items from the initial list to the second list, and then delete the initial list.

C. Create an empty second list, manually re-create the needed list entries, and then remove the matching list entries from the first list.

D. Copy the entire list, grid edit the copied list and remove entries that are not needed, and then grid edit the first list and remove the entries that are now in the second list.

Correct Answer: C

QUESTION 2

In Application Express, how do you enable a database schema assigned to the current workspace so that it can be used to serve ORDS-based RESTful Services?

A. Install the Sample REST Services packaged application.

B. Navigate to the Shared Components section and configure a REST Enabled SQL resource.

C. Navigate to the ORDS RESTful services section of SQL workshop, select the appropriate schema, and click the "Register Schema with ORDS" button.

D. Navigate to workspace administration and in the Set Workspace Preferences section, set Enable RESTful Services to "Yes".

Correct Answer: C

Reference: https://docs.oracle.com/en/database/oracle/application-express/19.1/aeutl/accessing-RESTfulservices.html#GUID-DE5D8763-A650-4FBA-9CC5-17E141C8406C

QUESTION 3

Carl has created a new region template as a copy of the Standard region template in Universal Theme. He wants to update the template, but is not sure how often the template is used throughout the application.

How can Carl determine all of the pages where his custom template is used?

A. Go to Application Utilities > Templates and review the utilization report

B. Go to Shared Components > Templates, and select References for the given template

C. Go to Application Utilities > Cross Page Utilities and review Page Attributes

D. Run the Application Advisor and select Template Utilization

Correct Answer: D
