- A. projects
- B. prtcl
- C. id
- D. ps

Correct Answer: D

QUESTION 3

You are the administrator of an Oracle Solaris 11 AI server. You added a client. Then you created a custom manifest, custom criteria, and a custom profile for the client. You made an error in the package path within the custom manifest. When will the error appear?

- A. when the manifest is checked during client preinstall
- B. when the manifest is used during client install
- C. when the manifest is updated on the AI server
- D. when the manifest is added to the AI server

Correct Answer: D

**QUESTION 4**

You must configure a ZFS file system on an Oracle Solaris 11 server to share it over NFS. (rpool/export/ share/data mounted on /export/share/data) The file system must be configured for read-only access and must assign anonymous users a UID of 0. The file system must allow read and write access for local users.

Assuming all ZFS properties except mountpoint are at their default settings, which option supports these requirements?

```
A) zfs set sharenfs=off rpool/export/share/data
   echo "share -F nfs -o ro,anon=0 /export/share/data" >> /etc/dfs/dfstab; shareall

B) zfs set share=name=data,path=/export/share/data,prot=nfs,ro,anon=0
   rpool/export/share/data
   zfs set sharenfs=on rpool/export/share/data

C)
   zfs set sharenfs=ro,anon=root rpool/export/share/data
   zfs set readonly=off rpool/export/share/data

D)
   zfs set sharenfs=on,
   share=name=data,path=rpool/export/share/data,prot=nfs,ro,anon=0
   rpool/export/share/data
```

A. Option A

B. Option B

C. Option C

D. Option D

Correct Answer: A

QUESTION 5

Frank is a member of two projects on your system. He has a process running in a project called project-clock and needs to move it under the other project he belongs to. Which command must Frank use to move the process?

A. setproject

B. newtask

C. projmod

D. prtcl

Correct Answer: C
