QUESTION 5

New: An electric utility is starting an Advanced Meter Infrastructure (AMI) roll-out for their residential customers. The initial plan is to roll out devices from their manufacturer with potentially three different device models. The customer has not decided what head-end systems they will use to communicate with these devices. Based on the customer's initial roll-out strategy, the devices will have to be configured consistently to support existing tariffs for billing.

Which is a valid consideration to determine the setup of device type administrative data for this implementation?

- A. billing usage rules
- B. the model number
- C. the device's date of manufacturer
- D. valid head-end systems, valid device configuration types, and the electricity service type

Correct Answer: C
