QUESTION 2

What are two advantages of version control software? (Choose two.)

- A. It supports tracking and comparison of changes in binary format files.
- B. It allows new team members to access the current code and history.
- C. It supports comparisons between revisions of source code files.
- D. It provides wiki collaboration software for documentation.
- E. It allows old versions of packaged applications to be hosted on the Internet.

Correct Answer: AC

Version control is a way to keep a track of the changes in the code so that if something goes wrong, we can make comparisons in different code versions and revert to any previous version that we want. It is very much required where multiple developers are continuously working on /changing the source code.
