Correct Answer: B

---

**QUESTION 3**

A regular user, joe, has just run:

```
./configure andand make andand make install
```

to build and install a program. However, the installation fails. What could be done to install the program? (Choose TWO correct answers.)

- A. Install the binaries manually with `suinstall`.
- B. Run `make install` with root privileges.

- C. Do not run ./configure in order to maintain the default configuration for correct installation.
- D. Rerun ./configure with a --prefix option where the user has permissions to write.
- E. Run make install\_local to install into /usr/local/.

Correct Answer: BD

---

#### QUESTION 4

After manually compiling and installing a new kernel, what has to be done regarding the initramfs?

- A. To initramfs is independent of the kernel and should not be modified unless the hardware configuration of the machine has changed
- B. Since the initramfs contains kernel modules, a new initramfs must be built for the new kernel
- C. During the compilation of the Linux kernel, a new initramfs is built automatically. The new initramfs only needs to be installed
- D. The system should be restarted since the initramfs reconfigures itself for the new kernel during the startup of the system

Correct Answer: C

---

#### QUESTION 5

In the following output, the load averages represent the system load averages for what time frames?

12:10:05

up 18 days, 19:00, 2 users, load average: 0.47, 24.71, 35.31

- A.  
1, 5 and 15 minutes
- B.  
1, 15 and 30 minutes
- C.  
1, 15, and 30 seconds
- D.  
15, 30 and 60 minutes
- E.  
15, 30 and 60 seconds

Correct Answer: A
