**QUESTION 1**

A data center is required to destroy SSDs that contain sensitive information. Which of the following is the BEST method to use for the physical destruction of SSDs?

- A. Wiping
- B. Low-level formatting
- C. Shredding
- D. Erasing

Correct Answer: C

Shredding is the best method to use for the physical destruction of SSDs because it reduces them to small pieces that cannot be recovered or accessed. Wiping, low-level formatting, and erasing are not effective methods for destroying SSDs because they do not physically damage the flash memory chips that store data.

QUESTION 2

A user is having difficulty installing a program in Windows Vista, as the computer appears to stall prior to the installation. Which of the following is the BEST choice of why this is occurring?

- A. Aero Settings are not enabled.
- B. Power Settings need to be enabled.
- C. BitLocker is scanning for corrupt software.
- D. UAC is waiting for user input.

Correct Answer: D

QUESTION 3

An office is experiencing constant connection attempts to the corporate Wi-Fi. Which of the following should be disabled to mitigate connection attempts?

- A. SSID
- B. DHCP
- C. Firewall
- D. SSD

Correct Answer: A

**QUESTION 4**

A user has a license for an application that is in use on a personal home laptop. The user approaches a systems administrator about using the same license on multiple computers on the corporate network.

Which of the following BEST describes what the systems administrator should tell the user?

- A. Use the application only on the home laptop because it contains the initial license.
- B. Use the application at home and contact the vendor regarding a corporate license.
- C. Use the application on any computer since the user has a license.
- D. Use the application only on corporate computers.

Correct Answer: B

Use the application at home and contact the vendor regarding a corporate license. The user should use the application only on the home laptop because it contains the initial license. The user should contact the vendor regarding a corporate license if they want to use the application on multiple computers on the corporate network

QUESTION 5

A user is setting up backups on a workstation. The user wants to ensure that the restore process is as simple as possible. Which of the following backup types should the user select?

- A. Full
- B. Incremental
- C. Differential
- D. Synthetic

Correct Answer: A
