**QUESTION 1**

A Case Team needs to search for all items that include the word "jasmin" because it refers to a project that is under investigation. The Case Team also wants to include variations such as "jasmen," "jasmine," and "jasminum". In addition to running the search now, the search will be saved and run after additional data has been added. Stemming is enabled for this case. Which search syntax or functionality should be used?

- A. jasmin
- B. jasm\*
- C. jasm?
- D. jasm???

Correct Answer: B

---

**QUESTION 2**

Which two keyword options are supported for performing a keyword-based collection using the Symantec Clearwell eDiscovery Platform 7.x? (Select two.)

- A. stemmed searching on Exchange sources
- B. wildcard searching
- C. searches containing multiple words
- D. proximity searching
- E. Boolean operators such as AND and NOT

Correct Answer: BC

---

**QUESTION 3**

A System Manager must collect data from three remote office sites, each with its own email server and file shares. For a new case, all data must be collected from the remote offices and processed in a single Symantec Clearwell eDiscovery Platform 7.x at the organization's headquarters. Data transfer between each office requires connection over a VPN link. The VPN requires reauthentication every 6 hours. How should the System Manager collect the data?

- A. configure remote collection to the headquarters' Symantec Clearwell eDiscovery 7.x environment via proxy server licensed for Collections
- B. deploy Symantec Clearwell eDiscovery 7.x servers at each office licensed only for Collections, and create Collection Sets for transport to headquarters
- C. deploy Symantec Clearwell eDiscovery 7.x servers licensed only for Collections outside the firewall at headquarters, with the esa.collections.wan.low\_bandwidth property set
- D. configure the Symantec Clearwell eDiscovery 7.x server at headquarters to collect using the OnSite Collector, with

hard drives containing the Collector sent to each remote office

Correct Answer: B

---

#### QUESTION 4

During an early case assessment, it appears that emails of interest are using code words. The terms "Red Dog," "Black Cat," and "Green Parrot" appear often in the emails. However, if the word "pet" appears, the message is irrelevant. Which syntax will search for any of the phrases mentioned without the word "pet"?

- A. ("Red Dog" OR "Black Cat" OR "Green Parrot") NOT pet
- B. ("Red Dog" or "Black Cat" or "Green Parrot") not pet
- C. ("Red Dog" OR "Black Cat" OR "Green Parrot") W/O pet
- D. ("Red Dog" or "Black Cat" or "Green Parrot") w/o pet

Correct Answer: A

---

#### QUESTION 5

The Symantec Clearwell eDiscovery Platform 7.x Review Dashboard is populated with case report data. By default, how often is data automatically collected and reports generated?

- A. every 4 hours
- B. every 12 hours
- C. every 24 hours
- D. every 72 hours

Correct Answer: C
