QUESTION 1

What must happen prior to running WAN Optimization reports on Cascade Profiler?

A. Host Groups must be configured.

B. Cascade Profiler must be successfully polling Steelhead appliances via SNMP.

C. The WAN-Steelhead interface group must be populated with WAN interfaces for all Steelhead appliances.

D. The Profiler baseline collection must be complete.

E. A WAN Optimization reporting template must be configured.

Correct Answer: C

QUESTION 2

Which of the following are TRUE concerning packet capture jobs on the Cascade Shark appliancE. (Select 4)

A. Packets can be captured from multiple capture ports on one Cascade Shark appliance.

B. The maximum length the packet data can be specified.

C. Packets can be filtered on host IP addresses.

D. SSL traffic can be decoded if the appropriate certificate are loaded in the Cascade Shark appliance.

E. The maximum storage bandwidth for the job can be specified in bits/sec.

F. Multiple packet capture jobs can run concurrently.

Correct Answer: ABCF

QUESTION 3

On Cascade Profiler, can you run a traffic report that shows all traffic from inside the network to outside the network, but excludes a proxy server?

A. No, this cannot be done with Cascade.

B. Set up the query to ask for all hosts between: Hosts "Within" a group "ByInternalHosts: All" (where All is a host grouping containing all inside address space) and for Peers set to "Outside oF. ByInternalHosts:All".

C. Configure query as B above but also add the Proxy Server to the "Outside" list.

D. Configure query as B above but also add the Proxy Server as a "not" in the Traffic Expression field. The expression to add would be "not host proxyhost " where proxyhost is the IP Address of the proxy.

Correct Answer: D

QUESTION 4

How is the Cascade Pilot license activated?

A. The license key is entered during installation. The license is activated either through an Internet connection or by phone.

B. The license key is entered during installation. The license must be activated through an Internet connection.

C. The license key is entered during installation. There is no activation but Cascade Pilot will detect if the license is already in use on the network.

D. There is no license key activation. The software image is shipped with the license key installed.

Correct Answer: A

QUESTION 5

To better analyze live traffic on Cascade Shark from Cascade Pilot you should:

A. Apply a View on the live interface and then start a Capture Job on the capture port to analyze traffic later.

B. Start a Capture Job on the capture port with a BPF filter and apply a View on the live interface for the same capture job.

C. Start a Capture Job on the capture port, apply a View on the live interface and create a trace clip for the time window of interest.

D. Never create a Capture Job to prevent packet drops.

Correct Answer: C
