-  **365 Days** Free Update
-  **800,000+** Satisfied Customers

### QUESTION 1

Which statement about fabric binding is true?

- A. It can be distributed by CFS.
- B. It binds devices at the interface level.
- C. It learns about switches or devices that are logging in if learning mode is enabled.
- D. Binding is based on Switch World Wide Names and domain ID.

Correct Answer: B

---

### QUESTION 2

Which function does the graceful restart feature allow a Cisco Nexus 7000 Series router to perform?

- A. Perform a rapid route convergence.
- B. Initialize a standby supervisor transparently when one is present.
- C. Remain in the data forwarding path through a process restart.
- D. Maintain a management connection throughout a router restart.

Correct Answer: C

Graceful Restart and Non Stop Routing both allow for the forwarding of data packets to continue along known routes while the routing protocol information is being restored (in the case of Graceful Restart) or refreshed (in the case of Non Stop Routing) following a processor switchover. When Graceful Restart is used, peer networking devices are informed, via protocol extensions prior to the event, of the SSO capable routers ability to perform graceful restart. The peer device must have the ability to understand this messaging. When a switchover occurs, the peer will continue to forward to the switching over router as instructed by the GR process for each particular protocol, even though in most cases the peering relationship needs to be rebuilt. Essentially, the peer router will give the switching over router a "grace" period to re-establish the neighbor relationship, while continuing to forward to the routes from that peer. ### QUESTION 3

When configuring PIM to support an OTV implementation, which PIM configuration is supported in Cisco NX-OS?

- A. SwitchA(config-if)# ip pim ssm default
- B. SwitchA(config-if)# ip pim sparse-mode
- C. SwitchA(config-if)# ip pim dense-mode
- D. SwitchA(config-if)# ip pim sparse-dense-mode

Correct Answer: B

#### QUESTION 4

When you configure LISP, which two components must be configured at the site edge? (Choose two.)

- A. AED
- B. ELAN
- C. ITR
- D. EOBC
- E. ETR

Correct Answer: CE

---

#### QUESTION 5

When configuring PIM on a Cisco Nexus 7000 Series switch, which mode requires you to configure an RP?

- A. ASM
- B. SDM
- C. SSM
- D. DM
- E. BIDIR

Correct Answer: E
