-  **100% Money Back** Guarantee
-  **365 Days** Free Update
-  **800,000+** Satisfied Customers

**QUESTION 1**

Which three statements about thick provisioning are true? (Choose three.)

- A. Unused space is available for use by other virtual machines.
- B. Disk has all space allocated at creation time.
- C. Before writing to a new block, a zero must be written.
- D. The entire disk space is reserved and is unavailable for use by other virtual machines.
- E. The size of the VMDK, at any point in time, is as much as the amount of data written out from the VM.
- F. Operates by allocating disk storage space in a flexible manner among multiple users, based on the minimum space required by each user at any given time.

Correct Answer: BCD

Explanation: A thick disk has all space allocated at creation time. This space may contain stale data on the physical media. Before writing to a new block a zero has to be written, increasing the IOPS on new blocks compare to Eager disks. The entire disk space is reserved and unavailable for use by other virtual machines.

**QUESTION 2**

Which three cloud providers are supported by Cisco Intercloud Fabric for Business? (Choose three.)

- A. Amazon Hybrid Cloud
- B. Microsoft Azure
- C. Dell Cloud Computing
- D. Cisco Hybrid Cloud Bundle in partnership with Dimension data
- E. HP Cloud
- F. Amazon Web Services: EC2 Classic and EC2 VPC

Correct Answer: BDF

---

**QUESTION 3**

A cloud architect is designing an automated provisioning solution for a private cloud. The disk format for provisioned VMware virtual machines must allow for the fastest possible provisioning times.

Which disk format satisfies this requirement?

- A. Lazy thick random
- B. Eager Zeroed
- C. Lazy Zeroes
- D. Dynamic
- E. Fixed

Correct Answer: C

---

#### QUESTION 4

Which option describes the foundation of automated cloud design?

- A. Start small, automate infrastructure, and define success criteria.
- B. Automate interaction with all application services before moving on to infrastructure.
- C. Contact your local cloud provider.
- D. Not all cloud designs are subject to automation.

Correct Answer: A

---

#### QUESTION 5

An organization has determined to deploy Cisco UCS and wants to leverage boot-from-SAN technology.

Which two storage protocols work for this design? (Choose two.)

- A. iSCSI
- B. S3
- C. FC
- D. NFS
- E. CIFS

Correct Answer: AC
