QUESTION 1

A user browses to a company website that is categorized as "Business and Industry" and contains a Facebook post. The user cannot see the Facebook post because the category "Social Networking" is blocked. Which configuration allows the user to see the Facebook post?

A.

A web site may embed or refer to content that is categorized as a different category, or that is considered an application. For example, a News web site could contain content categorized as Streaming Video, and the action selected for its own category/application, regardless of what web site it is embedded in. Use this table to set exceptions (e.g., to permit all content referred from News web sites, or from a custom category.)

☑ Enable Referrer Exceptions

Set Exception for Content Referred by These Categories:	Set Exception for This Referred Content:
Business and Industry	selected embedded / referred content ⌄ Categories: Social Networking Applications: Click to select applications...

B.

A web site may embed or refer to content that is categorized as a different category, or that is considered an application. For example, a News web site could contain content categorized as Streaming Video, and the action selected for its own category/application, regardless of what web site it is embedded in. Use this table to set exceptions (e.g., to permit all content referred from News web sites, or from a custom category.)

☑ Enable Referrer Exceptions

Set Exception for Content Referred by These Categories:	Set Exception for This Referred Content:
Social Networking	All embedded / referred content ⌄

C.

A web site may embed or refer to content that is categorized as a different category, or that is considered an application. For example, a News web site could contain content categorized as Streaming Video, and the action selected for its own category/application, regardless of what web site it is embedded in. Use this table to set exceptions (e.g., to permit all content referred from News web sites, or from a custom category.)

☑ Enable Referrer Exceptions

Set Exception for Content Referred by These Categories:	Set Exception for This Referred Content:
Social Networking	All embedded / referred content except ⌄ Categories: Business and Industry Applications: Click to select applications...

D.

A web site may embed or refer to content that is categorized as a different category, or that is considered an application. For example, a News web site could contain content categorized as Streaming Video, and the action selected for its own category/application, regardless of what web site it is embedded in. Use this table to set exceptions (e.g., to permit all content referred from News web sites, or from a custom category.)

☑ Enable Referrer Exceptions

Set Exception for Content Referred by These Categories:	Set Exception for This Referred Content:
Business and Industry	All embedded / referred content except ⌄ Categories: Social Networking Applications: Click to select applications...

A. Option A

B. Option B

C. Option C

D. Option D

Correct Answer: A

QUESTION 2

An administrator wants to restrict file uploads to Facebook using the AVC feature.

Under which two actions must the administrator apply this restriction to an access policy? (Choose two.)

A. Monitor Facebook General

B. Monitor Social Networking

C. Monitor Facebook Photos and Videos

D. Monitor Facebook Messages and Chat
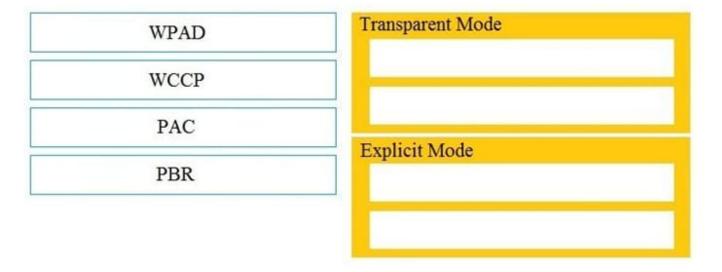

E. Monitor Facebook Application

Correct Answer: AC

QUESTION 3

DRAG DROP

Drag and drop the Cisco WSA methods from the left onto the correct deployment modes on the right.
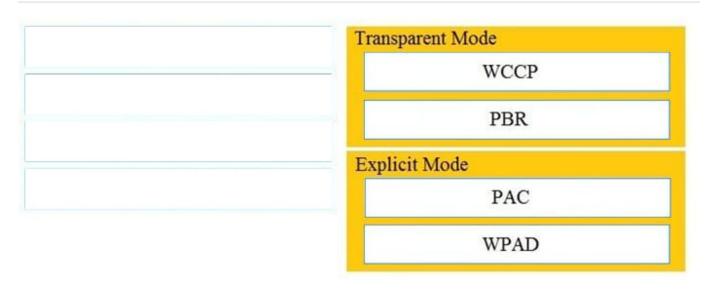

Select and Place:

WPAD	Transparent Mode
WCCP	
PAC	
PBR	Explicit Mode

Correct Answer:

Transparent Mode

WCCP

PBR

Explicit Mode

PAC

WPAD

You could use an explicit setting (browser config/PAC/WPAD) or transparent (WCCP/PBR) to point to the first proxy and then the first proxy will route based on category to one of the two upstream proxies based on your policy configuration.
