**QUESTION 1**

Why is FQDN resolution important between Session Manager and System Manager when the FQDN is unresolvable to either the Session Manager or System Manager?

- A. Session Manager node registration will fail during installation and data will not be replicated from System Manager to Session Manager.
- B. System Manager node registration will fail during installation and data will not be replicated from System Manager to Session Manager.
- C. Session Manager node registration will fail during installation and data will not be replicated from Session Manager to System Manager.
- D. Trust management will fail during installation and data will not be replicated from Session Manager to System Manager.

Correct Answer: A

QUESTION 2

A technician wants to schedule a bulk operation to take place at a convenient time in the future. What are two methods for scheduling bulk operations? (Choose two.)

- A. # Sh exportUpmUsers.sh -u admin -p admin123 -t 2013:05:01:12:00:00
- B. # sh exportUpmUsers.sh -u admin -p admin123 -d 2013:05:01:12:00:00
- C. Navigate to Users > User Management, click 'More Options' and select 'Import Users'. Choose 'schedule' in the options.
- D. Navigate to Users > User Management, click 'More Options' and select 'Export Users'. Choose 'schedule' in the options.

Correct Answer: CD

QUESTION 3

A new feature server has been deployed in the network. The feature server must be applied to all calls made and received by the user. A technician has been asked to make the necessary arrangements. After adding a SIP Entity and Entity Link, which sequence describes the next steps that should be taken?

- A. Navigate to the user's User Profile and open the Session Manager Profile. From the Originating Application Sequence drop down list, select the new Application Sequence. Repeat for the Terminating Application Sequence drop down list. Mark them both as being Mandatory.
- B. Define the new feature as an Application. Add the Application to an Application Sequence. Mark the Application Sequence as Mandatory. Add the Application Sequence to user's User Profile.
- C. Create a new Application Sequence or edit one that already exists. Add details of the new feature to the Application Sequence. Mark the new feature as being mandatory. Apply the Application Sequence to user's Originating and

Terminating Application Sequences In their Session Manager Profile.

D. Define a new Application that details the new feature. Add the new Application to an Application Sequence. Mark the new feature as being mandatory. Apply the Application Sequence to both Originating and Terminating Application Sequences in the user's Session Manager Profile.

Correct Answer: C

QUESTION 4
