**QUESTION 1**

A customer with an existing Communication Manager 6 (CM) duplex solution with g4bos and isdn trunks at their main location, is adding some remote sites with G430 gateways and local ISDN trunks for survivability and local calling. They will be inter-connecting them with an MPLS network with limited bandwidth to these remote sites. They want a network design that will restrict voice traffic to a defined level with the ability to overflow to the PSTN.

What would be the minimum network region design look like?

- A. One IP network region per remote location, one intervening network region, G.729 inter- region codec, implement Call Admission Control (CAC) with Inter-gateway Alternate Routing (IGAR)
- B. Two IP network regions per remote location, (one for the gateway, and one for the telephones), one intervening network region, G.729 inter-region codec,implement Call Admission Control (CAC) with Inter-gateway Alternate Routing (IGAR)
- C. One IP network region per remote location, connect each remote network region directly to the main site\\'s network region, G.729 inter-region codec, implement Call Admission Control (CAC) with Inter-gateway Alternate Routing (IGAR)
- D. One IP network region per remote location, two Intervening network regions, G.729 inter-region codec, implement Call Admission Control (CAC)

Correct Answer: D

QUESTION 2

To support 2000 users, acustomer wants an Avaya Session Border Controller forEnterprise (SBCE) with encryption for SIP trunking. They have agreed to use a one session for every five users sizing model.

How many licenses does this customer need?

- A. 2,000 standard and 2,000 advanced licenses
- B. 400 standard and 400 advanced licenses
- C. 400 standard licenses
- D. 2,000 standard licenses

Correct Answer: C

QUESTION 3

Which change was made to EC500, to provide CS1000 Mobile-X like feature experience?

- A. You can now put the call on hold before dialing a feature access code.
- B. You can now dial a feature access code without putting the call on hold.

- C. You can now enter a feature access code before receiving a call.
- D. You must now enter feature access codes before you put a call on hold.

Correct Answer: A

QUESTION 4

You are working on a design that includes Avaya Aura Presence Services.

Which statement regarding the Presences Services deployment is true?

- A. It always requires one or more dedicated (closed) Avaya Breeze?instances.
- B. It does not require dedicated (closed) Avaya Breeze?instances.
- C. It requires one or more general purpose (open) Avaya Breeze?instances.
- D. It can only be installed on one dedicated (closed) Avaya Breeze?instance.

Correct Answer: B

QUESTION 5

In preparation for the migration of CS1000 phones to Avaya Aura your customer is trying to understand how things will work after the migration.

How will CS1000 phones register?

- A. To Session Manager via the Avaya Device Adapter
- B. Directly to Communication Manger
- C. Directly to the Avaya Device Adapter
- D. To System Manager via the Avaya Device Adapter

Correct Answer: C
