E. HTTP SPAN (HTTP SPAN Probe)

F. RADIUS (RADIUS Probe)

G. Network Scan (Network Scan Probe)

H. DNS (DNS Probe)

I. SNMP Query (SNMP Query Probe)

J. SNMP Trap (SNMP Trap Probe)

Correct Answer: ABD

QUESTION 5

Which two ESMTP commands are supported by the ASA inspection engine? (Choose two.)

A. SOML

B. LINK

C. VERB

D. ONEX

E. ETRN

F. ATRN

Correct Answer: AE

ESMTP is an enhancement to the SMTP protocol and is similar is most respects to SMTP. For convenience, the term SMTP is used in this document to refer to both SMTP and ESMTP. The application inspection process for extended SMTP is similar to SMTP application inspection and includes support for SMTP sessions. Most commands used in an extended SMTP session are the same as those used in an SMTP session but an ESMTP session is considerably faster and offers more options related to reliability and security, such as delivery status notification. Extended SMTP application inspection adds support for these extended SMTP commands, including AUTH, EHLO, ETRN, HELP, SAML, SEND, SOML, STARTTLS, and VRFY. Along with the support for seven RFC 821 commands (DATA, HELO, MAIL, NOOP, QUIT, RCPT, RSET), the ASA supports a total of fifteen SMTP commands.
