**QUESTION 1**

You're designing your organization's eDirectory tree. You want to create Country objects at the top of your tree for each country where your organization has an office. Each of these offices has a regional network administrator. You decide to create an object named Admin in each respective Country object for each regional administrator. Will this tree design work?

- A. Yes, all eDirectory rules have been observed.
- B. No, eDirectory object names must be unique within the tree.
- C. No, user objects can't reside in Country container objects.
- D. No, eDirectory must be managed centrally. You shouldn't use distributed administrators.
- E. No, the name of Admin is reserved for the user object that's created during the first server install.
- F. No, eDirectory requires that trees be designed by departmental organization, not by geographic region.

Correct Answer: C

QUESTION 2

You're moving the ksanders user object from the SLC.DA container to the TYO.DA container in your eDirectory tree. You're concerned that ksanders may forget that her object has been moved and will try to log in to the tree using her old user context. What type of object can you create in the SLC.DA container that will allow her to continue logging in as ksanders.SLC.DA even though her user object now resides in TYO.DA?

- A. Alias
- B. Group
- C. Profile
- D. Template
- E. Organizational Role

Correct Answer: A

QUESTION 3

You're configuring location-based printing with iPrint on your OES NetWare server. You've scanned floor plans of your organization's office suite into JPG files. You now need to upload these images to your server. Which directory should you copy them to?

- A. Sys:\System\Ndfs\lppdocs\Images\Maps
- B. Sys:\System\iPrint\lppdocs\Images\Maps
- C. Sys:\Apache2\Htdocs\iPrint\Images\Maps

D. Sys:\Apache2\Htdocs\lppdocs\Images\Maps

Correct Answer: D

QUESTION 4

Which network protocols can be used by the Novell Client to communicate with an OES NetWare server? (Choose 2.)

- A. IP
- B. IPX
- C. AFP
- D. ICMP
- E. NetBEUI
- F. Server Message Blocks

Correct Answer: AB

QUESTION 5

The _____ product, included with OES NetWare, allows users to search for names, addresses, and phone numbers stored in eDirectory.

Correct Answer: eGuide
