**QUESTION 1**

An administrator is concerned that someone may be using unauthorized commands from cmd.exe. These commands are not considered suspicious or malicious, and there is no policy based around them.

Which page should the administrator use to find these commands?

- A. Sensor Management
- B. Investigate
- C. Policies
- D. Alerts

Correct Answer: A

---

**QUESTION 2**

An administrator runs the following query in Audit and Remediation:

```
SELECT *  
FROM users  
WHERE UID >= 500;
```

How long will this query stay active and accept data from the sensors?

- A. 14 days
- B. 30 days
- C. 7 days
- D. 1 day

Correct Answer: C

---

**QUESTION 3**

An administrator needs to check configurations using Audit across several policies and locations within the organization.

How can the administrator run the query to only these specific devices?

- A. Specify endpoints on the query by selecting the check box for each device.
- B. Specify endpoints on the query by typing the sensor name into the text box, selecting the device. Repeat as necessary for all devices.
- C. Specify the policy for the endpoints on the query, and then select the check box for each device.
- D. Specify the policy for the endpoints on the query, and then type the sensor name into the text box, selecting the devices. Repeat as necessary for all devices.

Correct Answer: D

---

#### QUESTION 4

At which three frequencies may a Carbon Black Audit and Remediation administrator schedule the run of Live Queries? (Choose three.)

- A. Monthly
- B. Daily
- C. Bi-Weekly
- D. Weekly
- E. Hourly
- F. Any frequency

Correct Answer: ABD

---

#### QUESTION 5

Which Live Query statement is properly constructed?
