**QUESTION 1**

Which enforcement level does not block unapproved files but will block files that have been specifically banned?

- A. Medium Enforcement
- B. Disabled
- C. Visibility
- D. Low Enforcement

Correct Answer: B

Explanation: The protection level applied to computers running the App Control Agent. A range of levels from High (Block Unapproved) to None (Disabled) enable you to specify the level of file blocking required.

QUESTION 2

After an emergency, what does the Restore computer button do on the App Control Home page?

- A. Move all computers to the original Enforcement level
- B. Move all computers to High Enforcement level
- C. Move all computers to Low Enforcement level
- D. Move all computers to Medium Enforcement level

Correct Answer: A

QUESTION 3

An active compromise is detected on an endpoint. Due to current policies, the compromise was detected but not terminated.

What would be an appropriate action to end the current communication between the device and the attacker?

- A. Uninstall the sensor
- B. Place the system into bypass mode
- C. Place the system into Quarantine
- D. Remotely scan the endpoint

Correct Answer: B

**QUESTION 4**

An administrator runs the following query in Audit and Remediation:

```
SELECT *  
FROM users  
WHERE UID >= 500;
```

How long will this query stay active and accept data from the sensors?

- A. 14 days
- B. 30 days
- C. 7 days
- D. 1 day

Correct Answer: C
