### QUESTION 1

With encrypted audio conferencing, you can configure three different secure conferencing nodes. Drag the node on the left to its description on the right.

Select and Place:

With encrypted audio conferencing, you can configure three different secure conferencing nodes. Drag the node on the left to its description on the right.

non-secure	enables Cisco Unified MeetingPlace to attempt to establish secure connections with end points
best-effort	default configuration
secure-only	ensures that non-secure end points will not be allowed to join a conference

Correct Answer:

With encrypted audio conferencing, you can configure three different secure conferencing nodes. Drag the node on the left to its description on the right.

	best-effort
	non-secure
	secure-only
