QUESTION 4

Your company deploys an Office 365 tenant.

You need to ensure that you can view service health and maintenance reports for the past seven days.

What are two possible ways to achieve this goal? Each correct answer presents a complete solution.

A. View the service health current status page of the Office 365 admin center.

B. Subscribe to the Office 365 Service Health RSS Notifications feed.

C. View the service settings page of the Office 365 admin center.

D. Run the Microsoft OnRamp Readiness Tool.

Correct Answer: AB

As an Office 365 admin, you can see whether there has been a service interruption or outage in your service on the Office 365 service health page. The Service health page shows status information for today, the past six days, and 30 days of history.

QUESTION 5

ADatum Corporation is a manufacturing company that produces widgets. The company has a subsidiary that operates under the name Fabrikam, Inc.

You are the Office 365 administrator for ADatum. The company is in the process of moving to a cloud-only computing environment. You purchase a new Office 365 subscription. You create Office 365 groups for each department at ADatum and add the appropriate employees to each group.

Requirements Office 365 Software

All employees must be prevented from installing Office 365 ProPlus from the Office 365 portal.

Microsoft Skype for Business Online needs to be configured for web meetings. Microsoft SharePoint Online must be used to store information collected from social media.

Security

File names collected in repositories must not be visible in clear text.

All data must be encrypted at rest.

All connections to cloud environments must require multi-factor (MFA) authentication.

All public facing websites must be hosted in the cloud. Employees must be able to join groups and access training materials from groups without requiring permission from the group owner. All email from ADatum of Fabrikam must be

verifiable.

Online presence

Implement a web presence to display new products to potential customers. Product announcements must display product images. A collaboration site must be implemented to allow employees to view how-to videos for completing job tasks.

The collaboration site must be searchable based on presenter name, face detection, and transcript information.

Employees of the sales department must have the ability to receive and send tweets.

All sales department employees must be able to view Twitter feeds.

On-premises software management

The company uses System Center Configuration Manager (SCCM) to manage software installation and maintenance of on-premises devices. Some line-of-business (LOB) legacy systems are running different versions of Office, including

2010, 2013, and 2016.

Office applications must not be upgraded or uninstalled, but must still be managed and maintained.

Software usage

All files and documents opened with Office applications must be recorded and sent to a central repository.

Email

All email originated by A.Datum or Fabrikam must support SPF and DMARC.

Marketing department

The marketing department requires the ability to publish quickly announcements of new products with images and photos.

All members of the marketing department must be able to create a site for each new product announcements.

The marketing team needs to be able to access tweets that include the company name or one of the product names through a storage location in Office 365.

Sales

Members of the sales department must have access to Skype for Business Online. The sales employee\\'s availability status must only be available to ADatum employees.

Sales employees must have a collaboration environment that allows them to initiate chat, meetings, and calls with other sales employees. The sales manager requires the ability to distribute information and schedules to the sales department

employees quickly and without using email messages. All sales employees must have access to all sales employees and partner organization employee\\'s schedules from a central location. The sales department manager must be able to

import schedule information from Kronos Workforce Central and integrate the information with the sales department schedule.

User training

A.Datum requires the ability to make training available to all employees from anywhere.

Employees must be able to access training videos, documents, and how to guides through a public-facing website.

Training videos must have the ability for employees to jump to a specific topic in the video without having to fast forward through the video to find the topic of interest.

All training material must be available to all employees in the organization but must not be available to anyone outside the organization.

You need to configure Skype for Business Online.

Which two options should you choose?

NOTE: Each correct selection is worth one point.

A. Assign sales employees an Online Plan 2 user subscription license

B. Assign A.Datum employees an Online Plan 2 user subscription license

C. Set the value of the presence privacy mode setting to Automatically display presence information

D. Set the value of the presence privacy mode setting to Display presence information only to user\\'s contacts

E. Assign A.Datum employees an Online Plan 1 user subscription license

F. Assign sales employees an Online Plan 1 user subscription license

Correct Answer: AC
