**QUESTION 1**

Your company purchases an Office 365 subscription.

You create a separate site collection for each department in the company.

You need to assign a storage quota for the site collection used by the marketing department.

What should you do first?

A. From the Site Pages settings of the marketing site collection, modify the Workflow Settings.

B. From the Site Pages settings of the marketing site collection, modify the site features.

C. From the Microsoft SharePoint admin center, set the Site Collection Storage Management setting to Manual.

D. From the Microsoft SharePoint admin center, set the Site Collection Storage Management setting to Automatic .
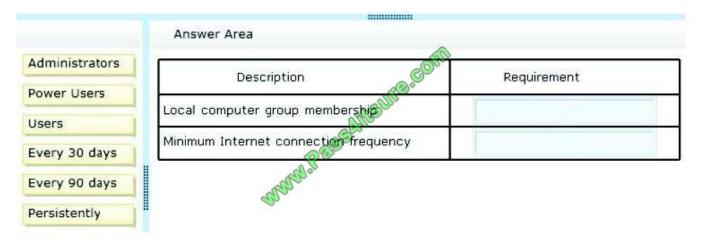

Correct Answer: C

**QUESTION 2**

Your company uses Office 365. You are planning a user-driven deployment of Office 365 ProPlus.

You need to provide users with the minimum requirements for running Office 365 ProPlus.

Which requirements should you provide? To answer, drag the appropriate requirements to the correct targets. Each requirement may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

Select and Place:

Correct Answer:

| | Answer Area | |
|---|---|---|
| | Description | Requirement |
| Power Users | Local computer group membership | Administrators |
| Users | Minimum Internet connection frequency | Every 30 days |
| Every 90 days | | |
| Persistently | | |

For users to have the ability to install Office 365 ProPlus on their computers, they must be configured as local administrators. Furthermore, users don\\'t have to be connected to the Internet all the time to use Office 365 ProPlus. They do,

however, have to connect every 30 days to prevent Office 365 ProPlus from going into reduced functionality mode.

**QUESTION 3**

HOTSPOT

You are the SharePoint Online administrator for Contoso, Ltd. You create a test site.

The specifications for the site are described in the following table:

| Property | Value |
|---|---|
| URL | https://contoso.sharepoint.com |
| Site Name | ContosoTest |
| Quota | 100 Mb |

You need to configure the specified site.

How should you complete the relevant Windows PowerShell script? To answer, select the

appropriate option from each list in the answer area.

Answer Area

[ ▼ ]  -Identity  [ ▼ ]  [ ▼ ]

[ ▼ ]

Hot Area:

Answer Area

Correct Answer:

Answer Area

**QUESTION 4**

You are the Exchange Online administrator for a company that has offices in Seattle, New York, London, and Paris. The StateOrProvince attribute in Active Directory is populated with each user's

location.

Employees must be able to send email messages to all users in Europe.

You need to create the distribution group.

How should you complete the Windows PowerShell command? To answer, select the appropriate segment from each list in the answer area.

Hot Area:

| New-DistributionGroup | ▼ | -Name Europe -Alias Europe ` |
| Enable-DistributionGroup | | |
| New-DynamicDistributionGroup | | |
| Set-DynamicDistributionGroup | | |

| -RecipientFilter | ▼ | {(RecipientType -eq 'UserMailbox') -and (StateOrProvince -eq 'London' -or StateOrProvince -eq 'Paris' |
| -IncludedRecipients | | |
| -ExternalDirectoryObjectId | | These are the responses for the second Windows PowerShell segment. |

| -Organization | ▼ | contoso.com |
| -DomainController | | |
| -RecipientContainer | | These are the responses for the third Windows PowerShell segment. |

Correct Answer:

| **New-DistributionGroup** | ▼ | -Name Europe -Alias Europe ` |
| Enable-DistributionGroup | | |
| New-DynamicDistributionGroup | | |
| Set-DynamicDistributionGroup | | |

| **-RecipientFilter** | ▼ | {(RecipientType -eq 'UserMailbox') -and (StateOrProvince -eq 'London' -or StateOrProvince -eq 'Paris' |
| -IncludedRecipients | | |
| -ExternalDirectoryObjectId | | These are the responses for the second Windows PowerShell segment. |

| -Organization | ▼ | contoso.com |
| -DomainController | | |
| **-RecipientContainer** | | These are the responses for the third Windows PowerShell segment. |

Box 1: New-DynamicDistributionGroup

Use the New-DynamicDistributionGroup cmdlet to create a dynamic distribution group.

A dynamic distribution group queries Active Directory mail-enabled objects and builds the group membership based on the results. The group membership is recalculated whenever an email message is sent to the group.

Box 2, Box 3: RecipientFilter, RecipientContainer

Example: This example uses the RecipientFilter parameter to create the dynamic distribution group Pacific Northwest in the Users container in the contoso.com domain. The Pacific Northwest dynamic distribution group contains all mailbox

users found anywhere in the contoso.com domain who have a State/Province field that equals "Washington" or "Oregon".

New-DynamicDistributionGroup -Name "Pacific Northwest" -Alias "Pacific_Northwest" - OrganizationalUnit "contoso.com/Users" -RecipientFilter {((RecipientType -eq \\'UserMailbox\\') -and ((StateOrProvince -eq \\'Washington\\' -or StateOrProvince

-eq \\'Oregon\\'))} -RecipientContainer "contoso.com"

**QUESTION 5**

You are the Office 365 administrator for your company.

The company\\'s environment includes Office 2007, Office 2010, Office 2013, Windows 7, and Windows 8.

The company uses Office Telemetry.

You need to collect Office version usage data for an upcoming migration to Office 365 ProPlus.

What should you do?

A. Open documents by using Office 2007, Office 2010, or Office 2013 on client computers that run Windows 7.

B. Use the Get-MsolUser cmdlet with the ServiceStatus parameter.

C. Search network shares for Office documents and export the results to a .log file.

D. Search local computers for Office documents and export the results to a .csv file.

Correct Answer: A

Telemetry Agents for all versions of Office collect the data of the most recently used documents, registered add-ins, and system and user information to upload to the shared folder. By opening documents by using Office 2007, Office 2010, or Office 2013 on client computers that run Windows 7, you allow the Telemetry Agents to collect the relevant data.
