QUESTION 1

Your company runs Windows 10 Enterprise on all devices. You hire a new employee and provide a device for the employee.

All drives must be encrypted.

You need to determine whether volume C in the device is encrypted.

At an elevated command prompt, which command should you run?

- A. `manage-bde etidentifier C:`
- B. `manage-bde n C:`
- C. `manage-bde nlock C:`
- D. `manage-bde tatus C:`

Correct Answer: D

QUESTION 2

A company plans uses Microsoft Azure to manage directory users. In Azure, you create a virtual network and a DNS record.

You need to set up the connection between the virtual network and your on-premises network.

Which two actions will achieve the goal? Each correct answer presents a complete solution.

NOTE: Each correct selection is worth one point.

- A. Configure the on-premises routing infrastructure to forward traffic destined for the address space of the Azure Virtual Network to the on-premises virtual private network device.
- B. Configure the private IP address space of the Azure Virtual Network.
- C. Manually create DNS records to point to the Azure virtual machines.
- D. Extract the server license certificate key from the configuration data, and transfer the key to an on-premises hardware security module.

Correct Answer: AB

QUESTION 3

A company plans to actively manage mobile devices.

You need to create a list of all jailbroken devices after they are enrolled.

What should you use?

- A. Azure Active Directory
- B. System Center 2012 R2 Configuration Manager SP1
- C. Intune
- D. Azure Active Directory Domain Services
- E. Azure Active Directory Device Registration Service

Correct Answer: B

QUESTION 4

DRAG DROP

Your organization is deploying new Windows 10 devices. You create a new organizational unit that contains all Windows 10 devices.

You are preparing a new security policy for Windows 10 devices. Your organization requires audits on the use of removable storage devices on personal devices.

You need to enable audits of removable storage.

Which three actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Select and Place:

Answer Area

Actions	Sequence
Enable and configure the Audit Removable Storage policy within Advanced Audit Policies Configuration.	
Enable and configure the Audit File System within Advanced Audit Policies Configuration.	
Create a new Group Policy Object for Windows 10 users and include User Configurations.	➤
Link the Windows 10 device Group Policy Object to the Windows 10 Device organizational unit.	⬅
Create a new Group Policy Object for Windows 10 devices and include Computer Configurations.	⬆
	⬇

Correct Answer:

Answer Area

Actions

Empty box

Enable and configure the Audit File System within Advanced Audit Policies Configuration.

Create a new Group Policy Object for Windows 10 users and include User Configurations.

Empty box

Empty box

Sequence

Create a new Group Policy Object for Windows 10 devices and include Computer Configurations.

Enable and configure the Audit Removable Storage policy within Advanced Audit Policies Configuration.

Link the Windows 10 device Group Policy Object to the Windows 10 Device organizational unit.

QUESTION 5

HOTSPOT

Overview

You need to configure email access for the Engineering department users.

What should you do? To answer, select the appropriate action from each list in the answer area.

Hot Area:

Answer Area

Task	Actions
Configure the on-premises infrastructure	<ul style="list-style-type: none">Set up the System Center Configuration Manager Exchange ConnectorSet up the Intune On-Premises Exchange ConnectorSet up the Intune Certificate Connector
Define conditions for access	<ul style="list-style-type: none">Create and deploy an app management policyCreate and assign a configuration policyCreate and deploy a compliance policy
Configure conditional access	<ul style="list-style-type: none">Publish OutlookAdd a group for mail-enabled mobile devicesConfigure the Exchange on-premises policy
