You create a retention policy and apply the policy to all of the mailboxes in the organization. You need to add a default policy tag to a retention policy.

H. Run the set-mailbox -identity user1-singleitemrecoveryenabled $true command.

I. Run the get-retentionpolicytag | set-retentionpolicytag -retentionenabled $false command.

Correct Answer: D

You can\'t create Retention Policy Tags (RPTs - for default folders such as Inbox and Deleted Items) with the Move to Archive action.

The Move To Archive action is only supported for Default Policy Tag (Type = \'All\') or Personal Tags. The former apply to entire mailbox. The latter can be used by Outlook 2010/OWA users to tag individual folders or items.

And you need to create an archive mailbox for the user.

So the correct command as the following. And if you need to new a DPT, please use type "all". New-RetentionPolicyTag "InboxMovetoArchive30days" -Type "All/Personal" -Comment "Inbox move to archive in 30 days" -RetentionEnabled

$true -AgeLimitForRetention 30 -RetentionAction MovetoArchive New-RetentionPolicy "ManagedFoldersRetentionPolicy" -RetentionPolicyTagLinks " InboxMovetoArchive30days"
