QUESTION 1

You are a consultant traveling out of town. You are carrying a Windows 8.1 Pro laptop that you use for giving presentations while connected to a projector.

You are concerned about battery life while presenting and need to modify your power settings to maximize battery life without risking interrupting your presentation.

Which two settings do you need to configure to increase battery life without risking interruption to your presentation? (To answer, select the appropriate two settings from the Power Options window in the answer area.)

Hot Area:

The screenshot shows the 'Edit Plan Settings' window for the 'Balanced' power plan. The window is titled 'Edit Plan Settings' and has a breadcrumb trail: '<< All Control Panel Items >> Power Options > Edit Plan Settings'. Below the title bar, there is a navigation bar with back, forward, and refresh buttons. The main content area is titled 'Change settings for the plan: Balanced' and includes the instruction 'Choose the sleep and display settings that you want your computer to use.' Below this, there are two columns of settings: 'On battery' and 'Plugged in'. The 'On battery' settings are: 'Dim the display:' (1 hour), 'Turn off the display:' (10 minutes), 'Put the computer to sleep:' (10 minutes), and 'Adjust plan brightness:' (slider). The 'Plugged in' settings are: 'Dim the display:' (5 minutes), 'Turn off the display:' (10 minutes), 'Put the computer to sleep:' (30 minutes), and 'Adjust plan brightness:' (slider). A large green watermark 'www.Pass4itSure.com' is overlaid diagonally across the settings.

Correct Answer:

QUESTION 2

You are a desktop administrator for your organization.

You have a small group of Windows 8.1 computers you want to upgrade to Windows 8.1 Pro.

You need to ensure that these computers have Windows 8.1 Pro installed on them.

You receive product keys from your contracting team. What should you do next?

- A. Under settings, add roles > Windows 8 Pro. Then input the license file.
- B. Select Run > Regedit > HKLM > License. Then overwrite the dword license file.
- C. Under Control Panel, select "Add features to Windows 8", and choose "Add product key".
- D. Put in a Windows 8 DVD. Your current product key will be recognized, and then you can install Windows Pro.

Correct Answer: C

Explanation: <http://www.petri.co.il/change-windows-8-1-edition-without-reinstalling.htm> Easily Change Windows 8.1 Edition Without Reinstalling Solution

To switch between the editions of Windows you need to use a tool called Windows Anytime Upgrade, which is installed on your computer. You will also need the right product key.

C:\Users\Chaudhry\Desktop\1.jpg

In the Add features to Windows 8.1 window click I already have a product key (assuming, of course, you have one; if not, purchase one).

C:\Users\Chaudhry\Desktop\1.jpg

Enter your product key and wait for a second. If it's correct, you will see a message saying "Your key works. Continue when you're ready". If it's not correct, you'll see a message saying "This key won't work."

Check it and try again, or try a different key".

Accept the license terms and click Add features. The progress bar should move around for a few moments. ... Check to see that you have the right edition by looking at the computer properties.

Further Information:

<http://windows.microsoft.com/en-us/windows-8/feature-packs> Get more from Windows 8.1

If your PC is running Windows 8.1, you can get Windows 8.1 Pro Pack and enjoy all the features of Windows 8.1 Pro as well as Windows Media Center.

3.

Tap or click Add features to Windows 8.1 and then do one of the following:

If you need to purchase a product key, tap or click I want to buy a product key online. Follow the steps to purchase and enter a product key. If you already have a product key, tap or click I already have a product key.

4. Enter your product key and click Next.

5. Read the license terms, select the check box to accept the license terms, and then click Add features.

QUESTION 3

You are a systems administrator for your company. The company has employees who work remotely by using a virtual private network (VPN) connection from their computers, which run Windows 8 Pro. These employees use an application

to access the company intranet database servers. The company recently decided to distribute the latest version of the application through using a public cloud.

Some users report that every time they try to download the application by using Internet Explorer, they receive a warning message that indicates the application could harm their computer.

You need to recommend a solution that prevents this warning message from appearing, without compromising the security protection of the computers.

What should you do?

- A. Publish the application through a public file transfer protocol (FTP) site.
- B. Publish the application through an intranet web site.
- C. Instruct employees to disable the SmartScreen Filter from within the Internet Explorer settings.
- D. Publish the application to Windows Store.

Correct Answer: B

Explanation: Intranet is the generic term for a collection of private computer networks within an organization. An intranet uses network technologies as a tool to facilitate communication between people or work groups to improve the data sharing capability and overall knowledge base of an organization's employees. Intranets utilize standard network hardware and software technologies like Ethernet, Wi-Fi, TCP/IP, Web browsers and Web servers. An organization's intranet typically includes Internet access but is firewalled so that its computers cannot be reached directly from the outside.

QUESTION 4

A company has 100 client computers that run various editions of Windows 7. The company plans to upgrade or replace computers so that all client computers run an edition of Windows 8.1.

The company plans to use the following programs and features on the Windows 8 computers:

32-bit and 64-bit software

Desktop apps Windows Media Player Storage Spaces

You need to identify the installation or upgrade paths that support the programs and features.

Which three paths meet the requirements? (Each correct answer presents a complete solution. Choose three.)

- A. Purchase hardware with Windows RT pre-installed.
- B. Perform a clean installation of Windows RT.
- C. Perform a clean installation of Windows 8.1 Pro.
- D. Perform a clean installation of Windows 8.1.
- E. Upgrade from Windows 7 Enterprise to Windows 8.1 Enterprise.

Correct Answer: CDE

Explanation: <http://www.microsoft.com/en-us/windows/enterprise/products-and-technologies/windows-8-1/compare/default.aspx> Compare Windows 8.1 Editions

QUESTION 5

A company has Windows 8.1 client computers. The company uses Windows BitLocker Drive Encryption and BitLocker Network Unlock on all client computers.

You need to collect information about BitLocker Network Unlock status.

Which command should you run?

- A. Run the BdeHdCfg command.
- B. Run the bitsadmin command.
- C. Run the BitLockerWizard command.
- D. Run the manage-bde command.

Correct Answer: D
